REPRESENTATIVE JOHN LEWIS DIES AT 80

Saturday, July 18, 2020

Along with Martin Luther King Jr., Rep. John R. Lewis was an organizer of the March on Washington in 1963, a seminal moment in the Civil Rights Movement that led to the passage of voting rights for Blacks two years later.

Rep. John R. Lewis, the civil rights icon whose fight for racial justice began in the Jim Crow south and ended in the halls of Congress, died Friday night. The Georgia lawmaker had been suffering from Stage IV pancreatic cancer since December. He was 80.

The son of Alabama sharecroppers, Lewis served in Congress for more than three decades, pushing the causes he championed as an original Freedom Rider challenging segregation, discrimination and injustice in the Deep South – issues reverberating today in the Black Lives Matter movement.

Along with Martin Luther King Jr., he was an organizer of the March on Washington in 1963, a seminal moment in the Civil Rights Movement that led to the passage of voting rights for Blacks two years later.

CHROMEBOOKS FOR ALL BHS STUDENTS

April 4, 2019

In the past, Chromebooks have only been available on select carts that needed to be rented out and charged within the school. They could only be rented for a few class periods before needing to transfer between teachers. Students would use the devices to complete work, but would more often fiddle and tamper with the laptop. Class lessons were specifically arranged for that day.

Now, the Barnstable High School administration is planning to distribute one Chromebook to every student in order to provide everyone with the technology required for 21st century learning.

White House chief of staff Mark Meadows had told reporters earlier in the day that the president was experiencing mild symptoms but was in good spirits.

Trump, 74, was going to Walter Reed National Military Medical Center in Bethesda, Maryland, in what aides said was a precautionary move. Officials said they expected him to be there for a few days.

The president's diagnosis, which he tweeted just before 1 a.m. on Friday, sent shockwaves through Washington and across the country, causing markets to plummet just weeks before the presidential election.

The president received a single 8 gram dose of Regeneron's polyclonal antibody cocktail as a precautionary measure, according to a memo from White House physician Dr. Sean Conley. Thousands Protest Peacefully in Boston Following Death of George Floyd

June 2, 2020

Thousands of protestors rallied at Franklin Park in Boston Tuesday afternoon in response to the killing of Black Americans at the hands of police, including most recently the death of George Floyd.

Organized by Violence In Boston Inc. and Black Lives Matter Boston, the gathering began with a "die-in" at Blue Hill Avenue before making its way through the park to Lemuel Shattuck Hospital, where a number of speakers addressed the death of Floyd, who was pinned to the ground by a former Minneapolis police officer for nearly 9 minutes.

The officer, Derek Chauvin, had his knee against Floyd's neck. He has since been charged with third-degree murder and manslaughter.

Among those speakers was former mayoral candidate and Boston City Councilor Tito Jackson, who reminded those in attendance of the glaring racial disparities in the city.

"We can't point fingers at other cities when we live in a city where white families are worth $247,500 and black families are worth $8," Jackson told the crowd.

The rally began at 5 p.m. and continued into the evening, where protesters eventually

KAMALA HARRIS MAKES HISTORY AS THE FIRST WOMAN ELECTED VICE PRESIDENT

ovember 7, 2020

Kamala Harris, D-Calif., has become the first woman to earn the title of vice ident-elect after NBC News projected former Vice President Joe Biden to be the ident-elect on Saturday.

ris' victory represents many firsts to come to the White House. As the daughter of Indian Jamaican immigrants, she will be the first woman and first person to identify as Black as South Asian-American in the role of vice president. An alumna of Howard University, will be the first vice president to have graduated from a historically Black college and be ember of a Black sorority.

ris ran her own presidential campaign this year before joining the Democratic ticket as n's running mate. At 56, the role positions her to be a strong contender for the presidency ture elections should she choose to run again.

ris made her mark in politics in California, where she served as San Francisco district rney before going on to become attorney general of the state — the first can-American to serve in that role.

ris' background as a prosecutor has made her a target of criticism from progressives ing criminal justice reform. But Harris has argued she's sought reform from within her

Election During COVID in Massachusetts

October 31, 2020

Covid-19 has put a damper on a lot of people's lives and has changed the regular person's everyday life in many ways. But, to have an election during a pandemic is another wrench thrown into it all. With social distancing and wearing masks, it raises the question of how are people going to vote in a healthy and safe way?

This year has opened lots of doors for alternative ways to vote for people who don't feel safe with going to a poll. The assistant town clerk for Barnstable, Janet Murphy, said that people have the ability to drop off ballots at drop boxes at the Barnstable Adult Community Center (BACC) or at the town hall in Hyannis.

"We've put out 14,695 vote by mail ballots and we have received a little over half of them back," Murphy said in an interview on Oct. 21, 2020. Murphy mentioned that the town hall purchased a mailbox specifically for this election so voters have more access to drop boxes. She said that the vote by mail has been a big push and voters have been excited to get their vote out

History in the Making

2020- A year far from normal. With COVID-19 throwing obstacles at us in every which, many have had to improvise. If it were any other year, seniors would most likely be focused on going on college tours and finding the perfect tux or dress to wear to prom, but not this year. Instead many seniors here at Barnstable have had to worry about keeping themselves and their families safe during these challenging times. In addition, students have had to get used to doing remote learning, whether it is synchronously or asynchronously. Some seniors only meet in person for certain classes once a week depending on which cohort - making it challenging for some to grasp certain subjects and excel in their classes. Seniors have also lost out on a majority of any social and/or sporting events.Similarily, athletes, musicians, and thespians are prevented from pursuing their true passions due to this deadly virus.

May this carefully curated keepsake serve as a reminder of who we were, where we have been, and what we will become, for we are a part of this history.

HISTORY at HOME

by Kaylee Arnold, Anna Item, and Stephanie Ribeiro

One of the unexpected upsides of being stuck at home for months on end is that you get lots of free time on your hands! How did you choose to spend it? Did you stay up late and sleep in every day? Did you scroll through social media for hours on end? Did you work as an essential worker? Did you pick up new hobbies?

Let's take a look at some of the many ways seniors kept busy during quarantine.

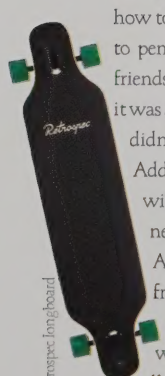
What did quarantine look like for seniors at home?

In our poll of 97 seniors, we found that 62.9% of seniors cooked or baked during their quarantine, 36.1% painted, 69.1% drove around, 50.5% spent time on TikTok, 33% did arts and crafts, and 68% worked.

Rachael Holzman

"I've been dancing for seven years, but quarantine taught me how to dance for myself," Rachael says. Over quarantine Rachael incorporated dancing into her daily routine day and night. With stay-at-home orders, people found various means of comfort to help them through the tough time. For Rachael, dance was her therapy. Along with dance, she also learned how to longboard. As a kid she used to pennyboard, but, having many friends who longboard themselves, it was about time she learned and didn't get left behind!

Additionally, Rachael, along with many, cooked up some new things over quarantine. After grabbing a cookbook from her dad, she learned how to make lava cake, which she was very excited about. She tells us that after having "lava cake" as her Snapchat password for three years, she finally learned how to make her favorite treat!



Rachael's Retrospec longboard

Gabi Coté

Gabi Coté honed her artistic skills over the summer by learning to make her own earrings. You can easily make your own earrings and keychains using polystyrene, the plastic material used in Shrinky Dinks. The process involves drawing your design onto the special plastic, then baking it in the oven, where it will become thicker and smaller. Gabi has used "everything from paper clips to paint to hot glue" to make her creations. "I'm going to school to be an animator, and some things that always inspire me to create are cartoons and anime," she said. "I found myself surprised with how many compliments I get on them, from fans and non-fans alike!" You can check out Gabi's work and even make requests for custom pairs at gabriellepcote.wixsite.com/weebcheck.

Pictured above is Gabi's favorite pair, inspired by the anime Demon Slayer!

Caua Faneco

Over quarantine with nothing to do except browse online, many began to shop online more than ever before. Caua found a new interest in buying and selling shoes with an online market called Stock X. Stock X is a site where you can buy and sell shoes, bags, streetwear, trading cards, and more, although sneakers are the primary focus. Stock X is unique because their focus is on authenticity. Sellers send their items to Stock X warehouses, where they are inspected for authenticity, ensuring buyers that their purchases are not counterfeit. Caua looked at stock prices and popular trends to maximize his profit. Among the many shoes that he sold, Caua says that his best-selling shoes were Yeezys, "running" for about $230-$250!

Pictured is a pair of Yeezys marked with the Stock X tag of authenticity!

Phoebe Gibson

During quarantine, Phoebe Gibson learned how to make her own handmade recycled paper products! Not only was she having fun and learning a new skill, but Phoebe was also giving back. All proceeds from the sale of her paper will go to charity. Phoebe was inspired by TikTok to make her own paper. "I was feeling really helpless that I couldn't do much [to help the Black Lives Matter movement] so I thought this would be a good way to make a difference," she said. The process of making recycled paper is actually easier than you would think! It involves shredding old paper into small pieces, mixing it with water to create a mushy pulp, and pouring it into a mold. You can follow Phoebe's paper-making journey on Instagram at @paper.homie!

Towards the end of our quarantine summer, Apple widely released their new update: iOS 14. Pulling from the widgets and customizability of the Android, this new update offered iPhone users the ability to completely customize their home screens by changing app icons and adding widgets of photos, calendars, quotes, moon phases, minigames, music, and more! We asked 97 seniors about their new home screens, and here are our favorites!

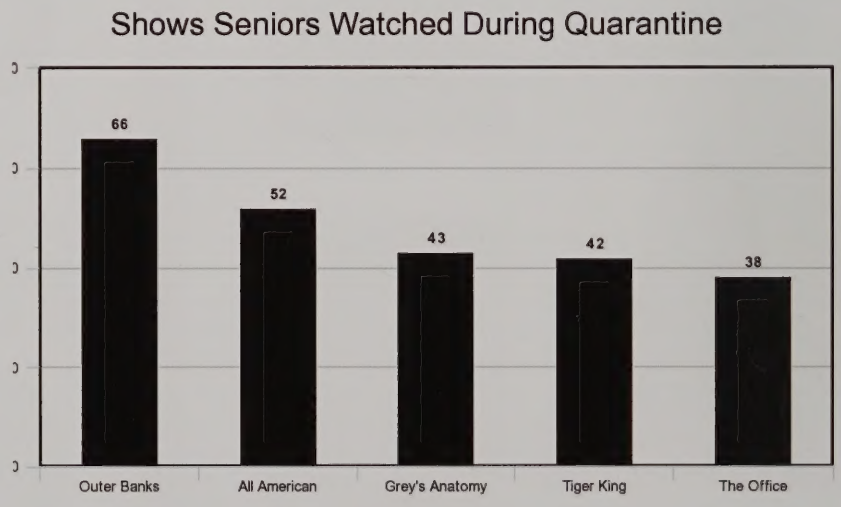
Quarantine Queue

These binge-worthy shows had seniors hooked!

By: Gracie Davis and Emily Mulcahy

Did you spend quarantine on your couch watching hours of Netflix? Well, some of our seniors sure did. Whether you watched "Shameless" like Sarah Jacob, or you watched "Money Heist" like Matthew Oliveira, there is no question that Netflix got us through quarantine. A majority of seniors actually admitted to watching fifteen to twenty hours of Netflix per week. Seniors also enjoyed other streaming services such as Hulu, Amazon Prime, HBO, and even Disney +. These streaming services took over our lives, and may have ruined our sleep schedules for a matter of months. We asked seniors. They answered. We polled over 115 seniors to find out what the most watched shows were on Netflix during the 2020 quarantine.



"I don't know what 's worse, that I watched every single episode of "The Office" during quarantine or that I ate a whole large pizza during every single episode."

Poll Results

>>> #5 The Office

Beats, Bears, Battlestar Galactica.... "The Office": a hilarious documentary-style sitcom series on Netflix depicts the 9-to-5 lives of office employees in the Scranton, Pennsylvania branch of the fictional Dunder Mifflin Paper Company.

#4 Tiger King <<<

Murder, Mayhem and Madness, Netflix's latest true crime documentary dives into the wild world of big cat owners and enthusiasts in an exploration of one man's path, from attention-seeking zoo owner, to convicted criminal. Many students had mixed feelings about the man who called himself the "Tiger King."

>>> #3 Grey's Anatomy

Pick me, choose me, love me. "Grey's Anatomy"- a high intensity medical drama, now on to its 17th season, will have you sitting on the edge of your seat. The show follows doctor Meredith Grey and her fellow coworkers at Grey Solcan Memorial Hospital, who are faced with life- or- death situations on a daily basis.

#2 All American <<<

Touchdown! "All American", a juicy sports drama on Netflix is about a high school football player, Spencer Jones, who is recruited to play for Beverly Hills High School and his two worlds collide.

>>> #1 Outer Banks

"Outer Banks", the ever popular show follows a group of teenagers who live on the Outer Banks of North Carolina. They are determined to find out what happened to their friend John B's father, who went missing, and they soon discover something that they think might lead them to him.

May I Take Your Order?

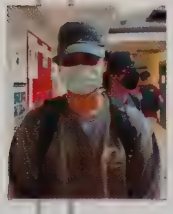
By: Leah Pierce & Lily Aubee

Sarah Jacob's favorite Chick-Fil-A order is waffle fries with special sauce.

Stephen Mee's Panera order is always the bacon mac and cheese.

Zade Shepherd's #1 Wendy's order is the "Baconator"

Phoebe Gibson's favorite Crisp Flatbread order is the pesto flatbread pizza.



Dillon Huntington's go-to order from The 99 is their boneless gold fever wings.

Mikey Meagher's Chipotle order is a chicken bowl, brown rice, corn salsa, pico de gallo, lettuce, and fajita veggies.

Since there was not much to do during quarantine, getting food was probably the first thing to come to mind (especially for teenagers!), so we decided to get some answers from our Barnstable High School Senior Class on what spots were the most popular during this time. Out of our whole class, 180 students responded and these are the results...

A Look Into The Past

The Yearbook Staff Takes a Look Into the 2019 vs. 2020 School Year

By :Meghan Meagher and Savanna Thomas

Back-to-school season is nothing like any previous school years we've had before. COVID-19 has pushed back our 2020-2021 school year with the first day of school being delayed to September 16th, instead of August 30th. The class of 2021 grew up going to school with each other for five days a week, to now only being able to see half our class two days a week. On top of that, we no longer experience TGA at Barnstable High, so those 10 to 15 fellow students we used to see on a weekly basis, we rarely encounter anymore. If we look back into 2019, there was mask-free homecoming and numerous sporting events. Students and teachers had no worries in the world about maintaining a six foot from one another or wearing a masks in the public eye. COVID-19 has drastically switched up the "senior experience", from refraining the amount of people at sporting events to canceling all drama theater arts shows. What will 2021 bring?

"I feel like a lot more things have changed than I've expected. I know school hasn't been the best and I've lost touch with a lot of close friends because of COVID, but looking forward, I hope things calm down and life goes back to the way it was." -Max Mahassel

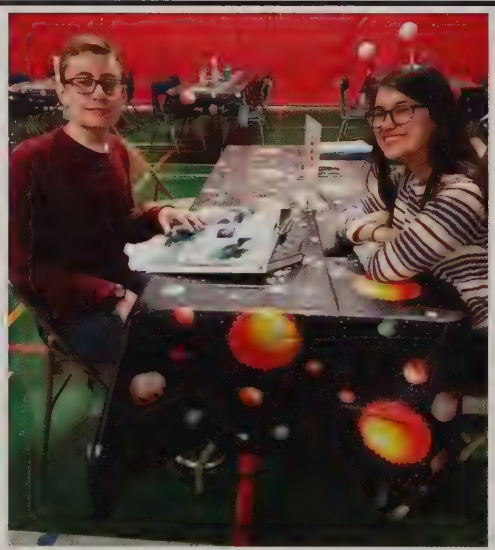
Seniors **Amy Kristofferson, Taylor Coombs,** and junior **Jordyn Johnston** standing proud in front of the crowded student section cheering on our Varsity football players at the pink game in October 2019.

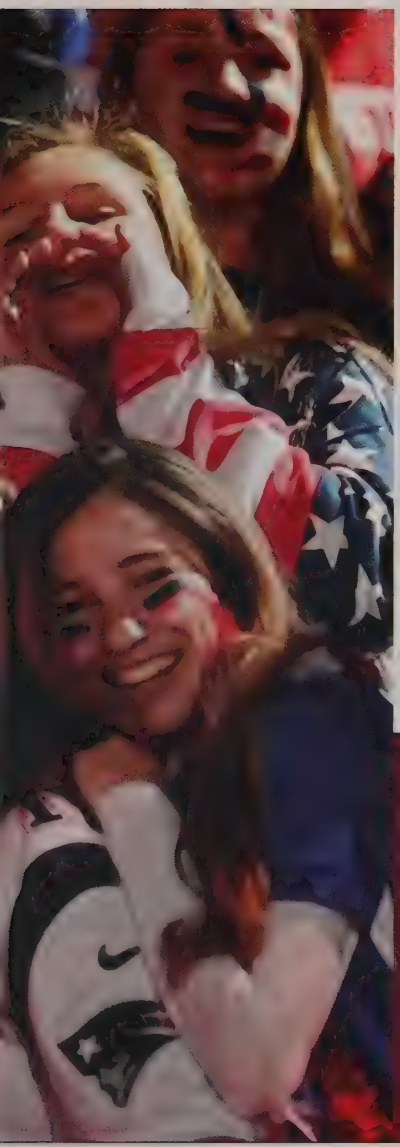


Dancing Under the Planets

Last May, senior **Marguerite Pronovost** and her buddy Noah Norman, were working closely together on an out - of this world arts and craft project at the space - themed dance.

The Proud Prince Pippin

Christian Bearse is seen playing the lead role of Pippin in Barnstable 's Drama Theatre Arts production of Pippin the musical. This captures his outstanding performance of "Morning Glow." Unfortunately, this years' start to the club has been delayed due to COVID-19 .



Friday Night Lights: USA Themed

Seniors **Gracie Davis, Chris Carter, Lily Aubee, Morgan Dardia, and Sophia Weinstock** celebrate closely at one of Barnstable's well-known USA-themed Varsity Football games. No concerns about having to wear masks, these seniors only concerns were cheering on our players, and wondering where they would get something to eat after watching the team's victory.

Artistic Flair

Senior Emily Rogers and partner Austin Wilde creating a masterpiece using cool toned water colors.

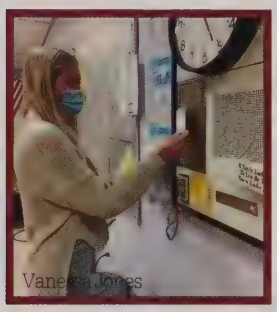
DECA Taking Home the Bronze

Seniors **Josie Ackell , Sailor Ciluzzi, and Kate Brewster** all placed for states at the December 2019 DECA competition. Sailor and Josie won third place for Sports and Entertainment Marketing Team Decision Making.

How Times Have Changed...

New Hallway Decor

Numerous yellow and black striped arrows fill Barnstable High School's hallways, directing students and teachers towards their designated classrooms. These arrows represent one-way hallways to prevent the possibility of spreading more germs.



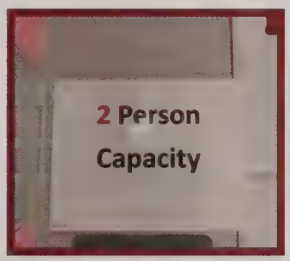
Vanessa Jones

Swiper Yes, Swiping

RFID (Radio-Frequency Identification) scanning cards were provided for students and teachers to trace where they have been all day. Everyone scans in and out of each room they have entered, allowing our paths to be tracked throughout the day.

Capacity Guidelines

In front of all bathrooms in the high school, there is a capacity sign, limiting the number of students per bathroom. Depending on how big or small the bathroom, the capacity differs.

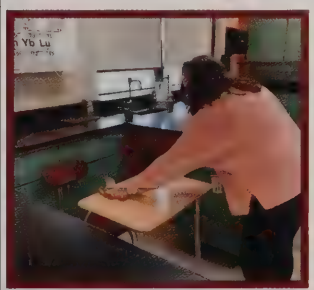


Traffic Limitations

Staircases in the high school are either up or down; they are only one way access. Some staircases are blocked off, allowing no students to proceed up or down. These changes made passing time four minutes longer than in previous years.

Everyday Essentials

Nowadays, most students backpacks consist of masks (and back-up masks), a computer along with a charger for a full day charge. And of course, numerous hand sanitizers to remove all the germs we collect throughout the day.



Hourly Wipe Downs

After every block has ended and a new one is coming in, the teachers are now required to clean each chair and desk with disinfecting spray. Along with the cleaning, each student is assigned a desk on the first day of school, which will remain their seat throughout the year.

THE MAKING Of MASKS

Following COVID-19, students and staff took to making masks to protect themselves and those around them. Take a look at the different designs that show off our true personalities, while keeping us safe from this vicious virus.

By: Sophie Strock and Shea Theoharidis

A Talented Teacher

During the pandemic **Mrs. Anderson** began making masks with the help of **Mrs. Hanchuruck**. Making masks was a way to pass time and relieve stress, while still being helpful towards the community. So far Mrs. Anderson has made over 3,000 masks with the help from friends and people that have donated materials. She makes the masks in about 15 minutes with her cotton material, elastic, and of course her sewing machine. Mrs. Anderson mostly donates her masks to help keep her friends and family safe, and she has also made masks for the staff and students at Centerville Elementary School. Mrs. Anderson says, "We just want to make sure everyone is protected and having a little bit of fun with their mask accessorizing." The fun designs and brightly colored masks definitely bring some joy into our days.

Anna Prlick

Cloaked In Creativity

Senior at Barnstable High School, **Anna Prchlik,** has family business popular to the area called, Cape Cod Chokers. During the COVID-19 pandemic, this small business decided to sell and handmake their own line of face masks. These popular masks come in many different designs that appeal to all, no matter what your taste! Anna's company has roughly sold over 1,000 masks. She describes the mask making process for us saying, "It's pretty simple.. we start by cutting out each side of the mask.. so there's four pieces of cloth.. then we sew all the together inside out with the band for your ears. Then we flip it right side out and iron them.. viola!" Out of all the masks she has made, her favorite is the cute dinosaur print that' is pictured below. Make sure to check out her company online at capecodchokers.com to get yours today!

GUESS WHO?

Can you guess this senior ?

Masks can sometimes make it difficult to identify people, even if they are a close peer. Can you guess who this person is? Here are some hints: he is on the track team, he is a twin, and he loves fantasy books.

masked models

Covered by Camo

Christian Bearse is rocking a blue and black camouflage mask. Trying extra hard to blend in with this mask makes it extra hard to tell him and his twin **Miles** apart!

Floral Fashion

Mr. Shea is sporting a beautiful floral mask. This cotton blend mask features coral pink and floral details, This lovely peony print adds some color and fun when Mr. Shea is teaching.

Double Trouble

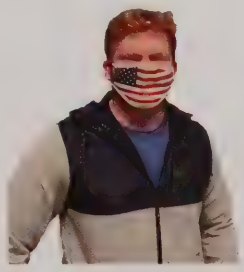
Mr. Yuen is working the face shield and the fashionable camouflage mask.. The dual protection defends the face from respiratory droplets. Better safe than sorry!

Fun & Funky

Maggie's mask has a vibrant floral print. The bright blue, red, and orange catch her eyes nicely. Just like **Maggie Pronovost's** great personality, this mask brings some positivity into the lives of those around her..

Reppin' America

Michael Fedele is working a bold and bright patriotic mask. He is showing his support to our country by wearing the red, white, and blue flag across his face.



Mask but not least

This medical mask may seem like a basic choice; however, this practical mask is trustworthy and very comfortable. The medical mask is lightweight and offers a helpful adjuster on your nose. The light blue mask compliments **Sidney Higgins'** bright blue eyes wonderfully.

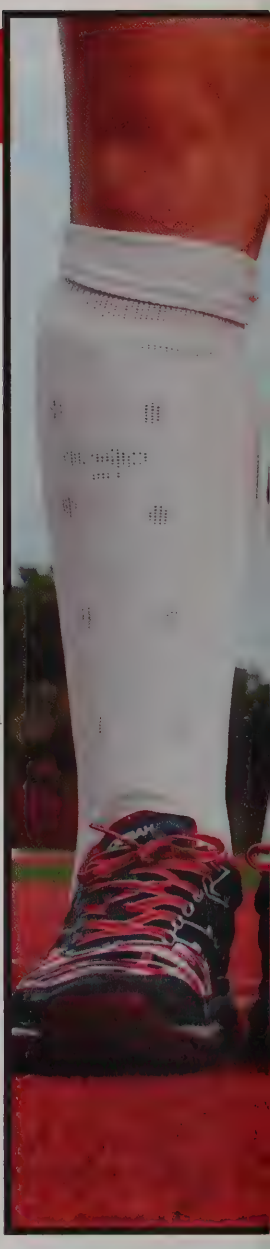
A Deeper Look Into The Fall Season and Its Changes

By: Amy Kristofferson and Rileigh Nickulas

Which mask regulation affected you the most?



Eduardo Suazo

"Masks make it hard to breathe."

Morgan Dardia

"The masks aren't even the issue anymore, the hardest part is not being able to play the way we have been taught the last ten years. We are trying to make the best of every day because I love this team and "rona" is killing it."

Mei-Li Lawrence

"I have to say that this has been a little difficult. We definitely have to make a conscious effort to remember, since we have been taught to 'run as a pack' from day one."

Leah Pierce

"The fact that if I want to take off my mask to breathe, I have to be ten yards away from someone, not six, feet- 10 yards!"

Will Cole

"Personally, I'm not a big fan of wearing masks."

Pros about this fall season?

"Being able to play with your friends and having fun again."
-Ava Sylvester

"Covid-19 definitely helped me realize that each day could be our last and you need to give 100% everyday."
-Heather Hanson

"Spending time with the team, team dinners, bus rides, and growing closer on and off the field"
-Grace Cooney

"It's really good that we actually have a season, I know none of us really thought there would be one."
-Charlie Ewald

Coaches Edition

What is the worst regulation?

Coach Bishop Field Hockey

Coach Bishop: "Definitely no penalty corners! I miss strategizing and coaching them defensively - it is a huge part of our sport and to have it taken away is really hard this year."

Coach Caldwell Cross Country

Coach Caldwell: "Only being able to practice four days a week. Other schools in our league are allowed to practice every weekday and on Saturdays as well. Not only does it put our team at a disadvantage completely, it also diminishes our ability to bond as a team."

Coach Doc and Coach Fligg Girls Soccer

Coach Fligg: "I would say that removing throw- ins and heading has minimized a lot of offensive opportunities."

Coach Doc: "Coaches getting yellow cards when politely pointing out a referee's mistake Definitely the no contact thing is terrible."

Boys Golf

Out Of Sports

Following a national pandemic, fall sports have changed significantly, for better or for worse. Each sport has their own rules and regulations to keep everyone healthy and safe. Sadly, the only sports that are allowed to be played during the fall season are boys and girls soccer, boys and girls cross country, boys golf, and field hockey. All together, sports are only allowed to have fifty spectators, from the home team and will need to fill out a form in order to watch. Usually everyone likes to celebrate after games; but, unfortunately, this is not allowed to happen anymore. Like anywhere in the state of Massachusetts, a face covering is required for spectators and players. We are all hoping numbers of spectators will be able to increase as the year goes on. Furthermore, there is no getting ready in locker rooms anymore. As for some sports , hanging out in the locker room before a game or practice relieves stress and is seen as a game day ritual.

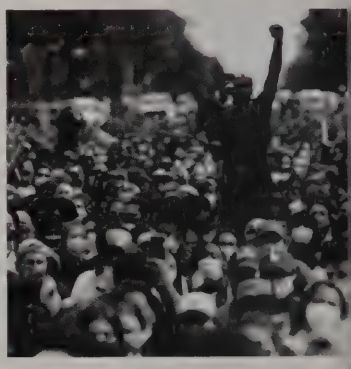
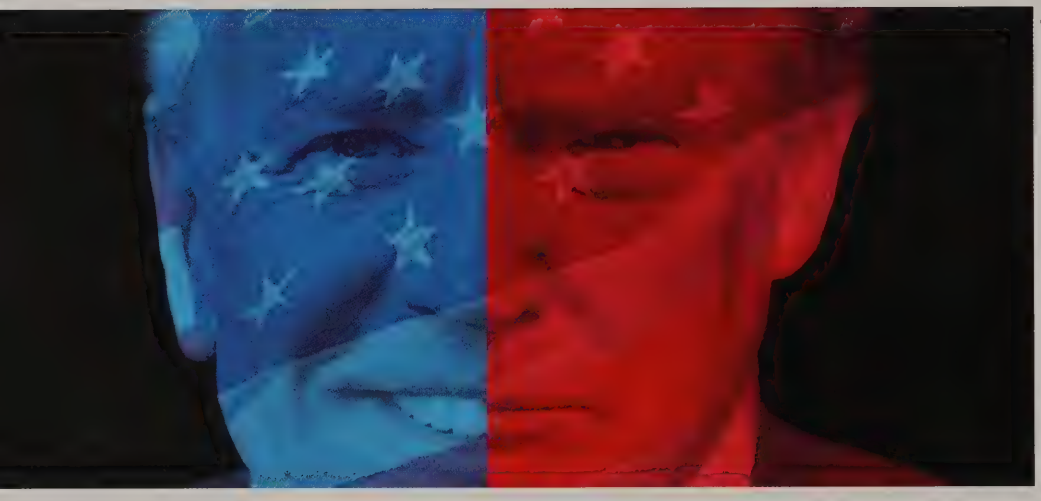
Stand Up

Just an hour away, Boston protestors express rage and exhaustion over lack of change following the deaths of Breonna Taylor and George Floyd, along with many others killed in senseless ways. This movement's influence can be seen locally, as BHS is instituting more racially appropriate books and units into their curriculum. In addition, a Barnstable Ally Group was formed by Ms. Williams to give staff the opportunity to institute change where needed.

The Fight Against Racial Injustice

All around the country, there has been an increase in protests in support of the Black Lives Matter movement. Studies show that this movement may be the largest movement in U.S. History, even greater than The Women's March in 2017. Unfortunately, some of these protests have led to violent actions and looting. The death of George Floyd on May 25, 2020, acted as a catalyst for a global uprising of the Black Lives Matter movement.





The Race to 270

Following countless arguments and heated debates between Republican, President Trump and Democrat, Joe Biden, Joe Biden became president-elect almost a week after Election Tuesday. Mr. Biden demonstrated a wide lead in both the electoral college and in the popular vote. Trump has refused to conceded, claiming election fraud prevented him from winning and maintaining his presidency for four more years. With Joe Biden at the helm of the United States, America welcomes the first woman of color as Vice President, Ms. Kamala Harris.

Senior Suffrage

The young people in our generation finally get the chance to voice their opinions and vote. Statistically speaking, among 18 to 29-year-olds, voter turnout went from 20% in 2014, to 36% in 2018, which is the largest percentage point increase for any age group. The seniors below got the opportunity to exercise their right to vote during the 2020 election.

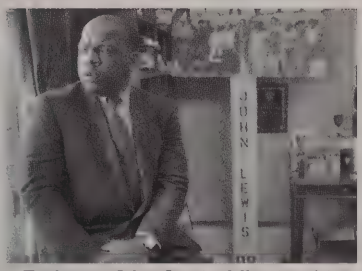
"Get in Good Trouble"

John Robert Lewis was an American statesman and civil rights leader who served in the United States House of Representatives for Georgia's fifth congressional district from 1987 until his death on July 17, 2020. Lewis was known for his activism in civil rights movement, along with being one of the original Freedom Riders. Moreover, Lewis is known for leading the Selma to Montgomery March, to demand an end to voter discrimination.

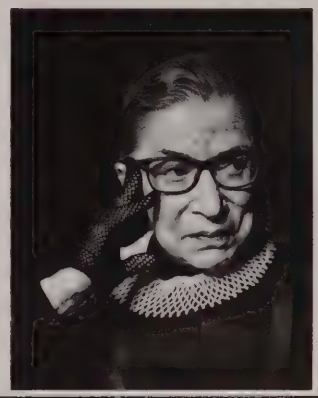


To honor John Lewis following his death, his body crossed the Edmund Pettus Bridge, more than a half century after he helped change American history there.

Notorious RBG

Ruth Bader Ginsburg changed the way the world is for American women. As an associate justice of the Supreme Court of the United States., she fought against gender discrimination and women's rights. RBG served as a justice on the Supreme Court for 27 years. Just days before her death, as her strength waned, Ginsburg dictated this statement to her granddaughter Clara Spera: "My most fervent wish is that I will not be replaced until a new president is installed.".

Sadly, RBG died on September 18, 2020. Amy Coney Barrett was sworn in on October 26, 2020 to replace Ginsburg.

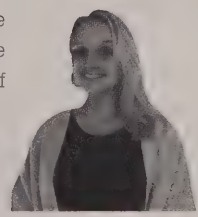


Fierce Fires Set California Ablaze

Starting in August of 2020, California struggled with 9,177 wildfires that burned down a total of 4,359,517 acres throughout the state. Many believe the intense thunderstorms from Tropical Storm Fausto, The Santa Ana Winds, and maybe even a gender reveal party may have led to these blazing flames. Human-induced climate change along with poor forest management have impacted these forests tremendously. This wildfire is the largest recorded in California's history. 32 lives were lost.

"This change will affect everyone because people will look at Barnstable differently. I play lacrosse and I'm hurt that I won't be a Red Raider as many of my family members have been."

-Katy Shaw



"This change will definitely reflect in the future of our school because it's stepping towards a friendlier and more open environment for everyone."

-Ashley O'Neill

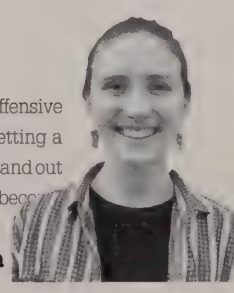
Retirement of The Red Raider

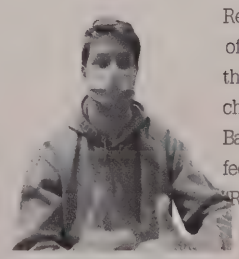
On August 5, 2020, the Barnstable School Committee retired the Red Raider mascot. This action was sparked by steps taken by founder of "BHS for Change", Grace Kilroy ('17).

Many find this mascot offensive and degrading to Native Americans, so this change only seemed fitting. In agreement, Phoebe Gibson ('20) comments "Red" refers to the blood that covered the Native Americans after they were scalped as trophies to the white settlements." In addition to retiring the mascot, the phrase ""Have a Red Raider Day!" has been abolished. "The time is right to retire the Red Raider mascot and determine the next chapter for Barnstable." Mr. Clark said.

"It's embarrassing that we've had such an offensive mascot for so long, and I'm thrilled we're getting a new one. I think this change will make BHS stand out as a school that really made the effort to bec better and more inclusive for all."

-Phoebe Gibson





"I do not agree with the change of the mascot because I feel that the symbol of a Red Raider was more of a representation of pride in Barnstable High School rather than a discriminatory symbol. I think changing the mascot will separate Barnstable High School and strip the feeling of unity behind being apart of the "Red Raider family" at BHS."

"The hybrid model has allowed me to be more independent and self disciplined. I feel like I have been given more freedom as a student. It has allowed me to be more appreciative/thankful of the small and simple things."
- Gabrielle Giammasi

"I miss being able to high five friends, and socialize without being 6 ft apart."
- Andrew McKeen

"The hybrid model has severely affected me in the area of math; math is very hard to learn through zoom."
- Robert Runci

"In-person learning is a little difficult with all the precautions in place such as one way hallways. It takes much longer to get to classes close by."
- Kaylee Arnold

"I miss the atmosphere of school, this year is a bit morbid and sad."
- Edwin Fajardo

Remote Vs. In-Person

"Turn on your cameras", the new reality of learning in 2020. This year many new words such as asynchronous, synchronous, cohort, and zoom are all interwoven into our daily vocabulary. Due to the number of students at Barnstable High School, we are currently separated into cohorts to lower the number of people in the school at once. Cohorts A and B are responsible to be in school two days a week, Cohort C is in person for four days a week, and Cohort D is fully remote all five days. While we know for some that remote learning was not their first choice, we will continue to persevere and unite as a senior class.

"Being hybrid has made me focused on more being independent and more organized as a student. I am also thankful that I am still able to go into school and see some of my friends."
- William Col

"I hate wearing masks and looking at a screen most of the day, I know I won't ever take school for granted."
- Kasi Powers

"Being in my own space without distractions makes learning a lot easier."
- Andrew McCormack

"Being online has made my grades drop, remote is not for me."
- Cheyenne Hawksley

"I have learned not to pressure myself as much and realize that I don't have to do everything at once; this learning model has been much less stressful for me than last year."

"I start by loosening up as much as I can, stretching, rolling 20-30 putts to get a feel for the greens. Lastly, I picture the first hole and plan out what shots I'm going to hit."

The boys golf team completed their season by winning three out of their eight matches. Due to Covid-19, the amount of matches this season got cut almost in half. The boys still fought hard during their fall season, and made sure to have fun. Will Cole expressed, "Enjoy the season with your friends or teammates as much as you can because competing against other schools is more fun when you are doing it with your friends."
Will Cole and Andrew McKeen swung their way through their senior year playing their last few matches together.

"To Seniors Andrew and Will, thank you for your leadership in guiding the team through a most difficult situation. To all players, I thank you for your cooperation and hope you enjoyed the season as much as Coach Toffolon and I did."

Falling into Soccer

Soccer for the class of 2020 has been one for the books. This year's girls and boys soccer teams have faced obstacles never seen before, even so they have been overcoming and conquering anything that comes their way. The new regulations have pushed for less contact and physicality in games, and everyone is required to wear masks during play, which definitely makes it hard for the players. Due to the changes, the season was shortened, with fewer games and less teams, there were only four teams among the league that they could play against this season. Even with all the differences this season the girls team was able to win the Cape League Championship against Nauset, ending the season with a 6-2-2 record. The boys team finished strong and made it to finals. Unfortunately, they lost their last game against Nauset with a score of 5-1. They finished the season off with a 6-1-3 record. Barnstable says their goodbyes to twelve senior boys and four senior girls.

Traditions and Necessities:

"I can't play without my lucky underwear, and unfortunately, my mask."

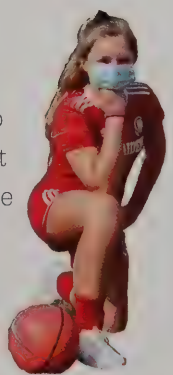
-Gabriel Vargas

"I always high-five our keeper, and the back line."

-Sailor Ciluzzi

"I can't go without listening to music to get hyped before a game."

-Rodane Gordon



"I always make sure my right sock is inside out. It came out of the laundry like that one day and now I always make sure to do it. Also, our soccer prayer before the game always gets me in the mood to play!"

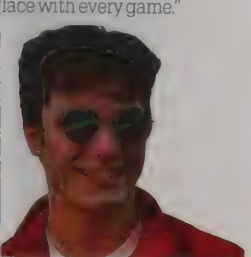
-Sophia Weinstock

Captains Corner

"Being a captain is putting the team before yourself. Being a leader on and off the field, setting a good example and being a role model. Keeping energy and morale up no matter the outcome of games. And being someone everyone can turn to. It's a big commitment but it is so rewarding. All the girls on the team are leaders, but as captains, we get the title. Everyone here is a part of something larger than themself and it's everyone's goal to help lead, we are shepherds not sheep."- Morgan Dardia

Chris Carter

"Responsibility and leadership are key to being a captain. Everyone looks up to the captain to be the pillar of the team with the job of not letting anyone down. Trying to calm down your team when you're getting frustrated is one of those challenges that you face with every game."



Alan Ives

"We are no different from anyone else. We all play because we love the sport..Becoming captain of the team has made me feel that I must hold a responsibility when things go wrong or acknowledge when things go right.."

Zade Shepherd

"To be a varsity captain at the age of 16 is something I worked for and deserved. Being a captain has meant so much to me since I've never looked at myself to be a leader."

Morgan Dardia & Kate Brewster

"The joy we felt after that game was unmatched," says Kate Brewster after her favorite game, a championship against Nauset. Kate has played soccer since she was little, she began her soccer career with the YMCA and from there on she loved it and has played ever since. The girls and boys cross country teams kicked off this season strong. The boys team managed to achieve an amazing record of 3-1, and the girls team successfully went 4-0 and accomplished the victorious win of the title, "Cape & Islands League Champions". With the safety guidelines for COVID in play, both teams knew this season was not going to be the same as past seasons. Each runner was required to run with a mask on and stay at least 6 feet away from each other. Only 7-10 runners were allowed to run at one time to help practice social distancing. Sadly, locker rooms, huddles, and handshakes were completely off limits to keep students and coaches safe. The teams were not allowed to travel off Cape to compete with other teams,,therefore, there were not as many meets as usual. Although this season was very different, both boys and girls teams were able to fulfill an impressive season that they will always remember.

Catching Up with the COACHES

Coach Faszewski

Coach Faszewski has been coaching boy's cross country at Barnstable for the last eight years. Although this year had many challenges for both him and his team, the most memorable moment for him was, "Winning the Cape and Island League Championship Meet.". But most of all he enjoyed watching his seniors who he has coached since 8th

Coach Caldwell

Coach Caldwell has coached the girls at Barnstable for 19 seasons. His most memorable moment of this season was "Successfully and safely completing the season during a pandemic while winning a league championship is most definitely the highlight of the season!"

The Arts Making History

Senior musicians + artists adjust to new changes

By: Sophie Strock and Kaylee Arnold

Even in these trying times, the seniors of the arts department have defied the odds and continued to spread their love for art and music. Between losing their showcases and losing valuable class time to perfect their craft, students have persisted and showed that not even a global pandemic can stop them. These students have come up with different ways to follow guidelines by either social distancing at ten feet or presenting their works around the school or through online sources.

Musicians in Action

Before COVID-19, senior musicians performed in many events incldluing marching band, The All Cape Music Festival., and at hockey games with the Tri-M Music Honors Society.

Mr. Maguire

"One of the biggest effects I feel COVID-19 has had on the music department this year is, unfortunately, a number of our ensembles have been unable to play together in class at school. This is tough, for students and teachers as the joys of making in-person music together each year is something I know we all look forward to. However, we persevere as everyone has been doing throughout 2020. To adapt we have been making recordings at home more with playing and practicing, we have taken deeper dives into studying our pieces and the music theory surrounding it in order to better utilize at home practice time, and we continue to find ways to make music connect and lift us up. Though it is more "virtual", I know the music we make and study this year, in all music classes, is still just as wonderful."

Molly Metz

"I miss doing concerts and being able to play in person. Having to be 10 feet away does not give the same experience as before and makes it difficult to play together. The opportunity to play in the marching band is another thing I miss doing, from playing at football games to our after game dinners at the 99!"

Different Perspectives

The students in the art department have had to be extra creative this year due to the COVID-19 guidelines. Usually the students have access to an abundance of resources to express their creativity. However, due to the new precautions, they are limited to supplies they can use when they are not in the classroom. They have resorted to using new mediums that are pushing them out of their comfort zone. This year may have its setbacks, but it has allowed students to discover new aspects of the art world, while further exploring their creativity.

Mr. Skirvan

"The creativity of our department and the students in the art classes has not been diminished by any means. We are all finding ways to be creative. I have found that the new structure has challenged us all to think differently about our approach and how we can still complete all of our objectives teaching both virtually and in-person."

Rodrigo Vasconcelos

"I found more time for myself to make and practice art. With the spare time, I decided to take on a lot more challenges that I felt overwhelmed my pre-COVID life. Whether that be discussing sensitive topics or experimenting with mediums I felt insecure in. I felt like this year really shifted our collective focus onto more community and self-building pursuits."

Fashion Finds

This year the world of fashion took a turn to more of an athlesiure style , a cute and comfortable way for any high school student to truly express themselves... even from the comfort of their home during a Zoom call. The effortless look is one that many students turn to when they are stuck trying to find that perfect outfit. Whether you were rocking tie-dye during quarantine, or bike shorts with a slip dress for that "just jumped off the peloton look", students reach for styles that are versatile and require minimual effort.

Basic and Bold

Katy wears a classic v- neck long sleeve shirt tucked into a pair of white washed ripped jeans. She enhances her oufit with a belt and a trendy head scarf. She is also wearing a pair of new Nike Blazers. These shoes are the new go- to for girls this year for comfort and style. Being customizable, these shoes allow for a variety of different ways to make your outfit unique.

Katy Shaw

Rodan sports a Nike graphic long sleeve shirt with a pair of ripped jeans. As seen above, ripped jeans are also a very popular style for boys and girls throughout the high school. He pairs his Nike shirt with a pair of Nike Air Max which add a pop of color to his outfit. In addition Rodan wears a gold chain to complete his ensemble.

Checkered with a Choker

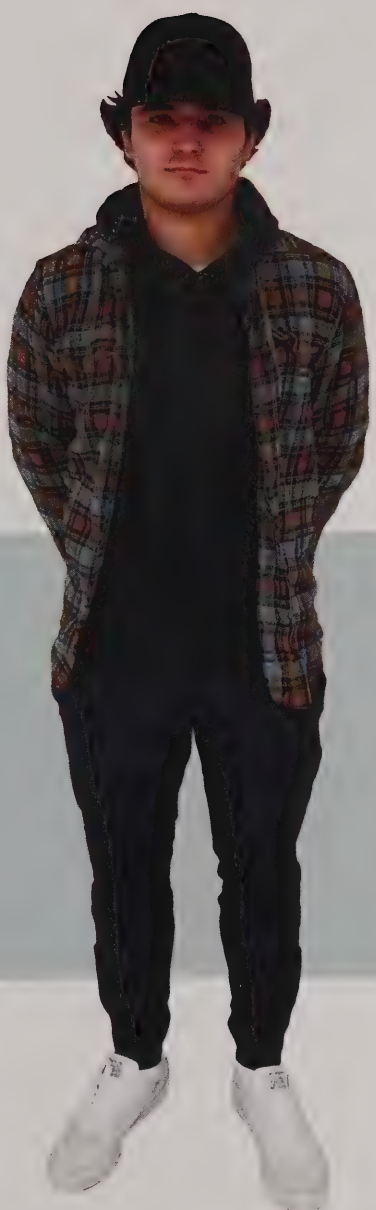
Alessandra pulls off a black floral maxi skirt and pairs it with a timeless checkered sweater. Checkered clothing has been popular since the 70's. To complete the outfit, she wears a pair of black heeled booties which are a very popular way to take your outfit to the next level. To top it all off, Alessandra accessorizes her outfit with a choker necklace.

Alessandra Scibelli

Feeling Fierce

Flare pants are making a come back from the 70's. This year flare pants are becoming increasingly favored in many fabrics such as jean and legging material. Jamie is rocking these cheetah flare pants and styles them with a cream colored sweater. Animal print is becoming a favorite among the students. To complete her look, Jamie styled her hair in a very trendy half up half down fashion.

Jamie Lawton



Fall Flannels

Flannels have become one of the most popular 2020 trends among guys and girls. Many of the boys tend to layer them over a sweatshirt or long sleeve shirt. Dillon has paired his flannel with a pair of Lululemon joggers. Lululemon joggers have become a comfortable but stylish way to dress during the pandemic. Dillon complements his joggers with a pair of classic white Vans.

Cute but Comfortable

Over the recent years, high rise jeans sometimes referred to as "mom jeans" have made their apperance, along with various graphic tee shirts. Meghan paired her ripped high rise jeans and graphic tee shirt with a black sherpa jean jacket to stay fashionable and warm in the recent cool fall days. She is also wearing Adidas Stan Smith sneakers, which are the perfect pairing for a comortable, yet stylish look.

'Peace With Emotion'

"So I began this piece not really knowing what the outcome would be. I started by making a tie dye like background with shades of yellow. I first used a pencil and created these four faces connected with one line. Then I continued over the pencil with black paint making them look the way I liked. I saw that there was empty spaces between each face that I thought represented their emotion and I filled in a few areas."

Sophia Weinstock

Sailing Through Quarantine

"After my season got cancelled in the spring, I didn't really know when I would sail again since social distancing was at its height back in March and April when we should've been sailing. A close family friend mentioned a Regatta that we could enter and that was the first and last time I had been sailing since. Even though we didn't win the race, it felt so good to just play around on the water and it reminded me of back before sports and activities were put on hold."

In March of 2020 , the world went through quite a few changes. Businesses closed, schools were moved to online and people were recommended to stay home. While you might of been feeling cooped up, or missed your loved ones, there are some benefits to staying inside.. Over the course of seven months ,students at Barnstable have come up with new hobbies, to keep them busy during the more boring times. Most students said that they either spent their time driving around, working or exercising. Other students discovered a new love for a hobby; picking up a new instrument, cooking or creating new art. These students took advantage of the time they had and realized how many opportunities were out there around us.

you're one of a kind, smile more.
- Roman Atwood

Carlos Guimaraes

You're brazilian?

Heather Hanson

It's very hard in the beginning to understand that th whole idea is not to beat the other runners. Eventual you learn that the competition is against the little voice inside you that wants you to quit.
- George Sheehan

Charles Hart

Talent sets the floor, character
sets the ceiling.
- Bill Belichick

Kalie Harty

If you're always trying to be normal
you will never know how
amazing you can be.
- Maya Angelou

Lilianna Harvey

It's the only life ya got,
so ya gotta live it big time.
- Big Time Rush

Designed by Kaylee Arnold

Kathleen Hanson

I was thinking about how people seem to read the Bible a whole lot more as they get older; then it dawned on me – they're cramming for their final exam.
– George Carlin

Sean Hanson

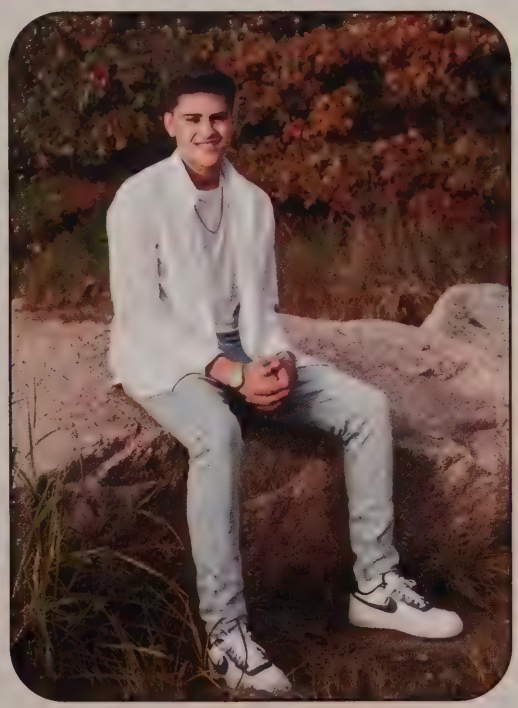
The only thing more contagious than a good attitude is a bad one.
- David Goggins

Zachary Harmon

I was never late to class... everyone else was just early.

Cheyenne Hawksley

My growth comes with no apology letter ttached to it. It comes with no honey-coated words and actions. It comes with no guilt or regret. I'm grateful for anyone I left behind, ecause your absence helped me more to find myself.



Dakota Hendricks

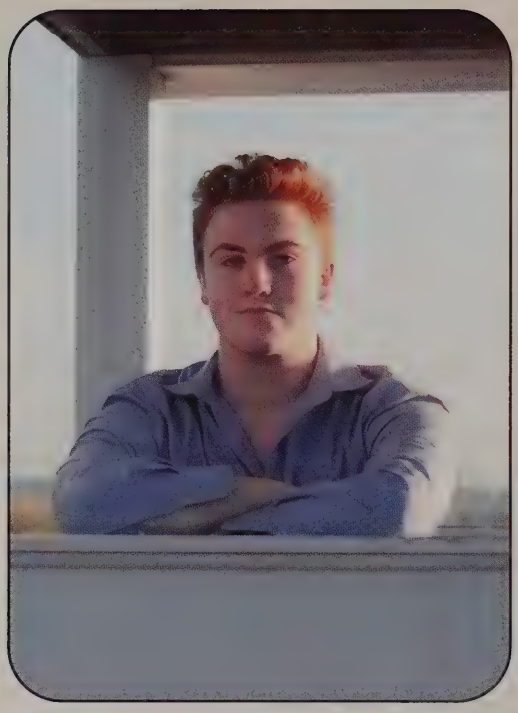
People congratulate me. I just tell them God is good.

Kameryn Herren

Well.....this was nothing like "High School Musical."

Sydney Hicks

Got a grip on the world,
I'm okay with who I am.



Conor Higgins-Bissell

May the wings of destiny carry you aloft to dance with the stars.

Sidney Higgins

You have to believe in yourself before anyone else will.

Dillon Huntington

Life is either a daring adventure or nothing at all. Don't go through life without GOALS !

Math Honors Society

Mu Alpha Theta, known better as Math Honors Society, was created to promote the scholarship and commitment students show in their math classes. The students compete in math meets and offer tutoring for students struggling with math. Luckily, they were able to run with online Zoom meetings during COVID.

Chinese Honors Society

Chinese Honors Society is involved in community service and also helps younger Chinese students strive in class. All students are welcomed to their meetings and are encouraged to celebrate the culture of China.

Mrs. Wu

Advisor:
Mrs. George

Math Team

Math Team works on conceptual math problems with 4-5 different areas of focus. They compete in four meets throughout the year, where students have the ability to qualify for state events or other competitions.

Advisor:
Mrs. George

Robotics

Robotics Club gets students involved in building and designing VEX robots for local competitions. The competitions take place in Massachusetts and beyond. Due to COVID, they are not running this year. Even with that, we want to recognize our seniors for their participation!

Advisors:
Ms. West and Mr. Lenda

Anime Club

The Anime Club tends to focus on the culture of Japanese animation. It gives students the opportunity to connect with peers while discussing the current trends of anime. Anime Club was started in 2005.

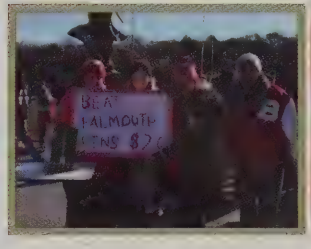
GSA helps raise awareness for safety and equality in our school and community. This club is a safe place for students of any race, religion, or sexual preference. This club has been running for many years across the country. Ms. Brown took the club over about eight years ago.

Gay Straight Alliance

Advisor:
Mr. Watson

The Best Buddies Club gives students the opportunity to work with fellow students who have disabilities. They help organize special events with support from the peer buddies. Best Buddies has been a club at BHS since 2008.

Best Buddies



Advisor:
Mrs. Mach-Dixon

Our class officers, Abby Olsen and Gracie Davis, have been working diligently to make sure our class had the best high school experience possible. From their many fundraisers at Papa Gino's and Chipotle, they have worked hard to make sure our class has the funds and means for our events at the end of the year.

Class Officers

Advisor:
Mr. Koehler

Leo Club is a worldwide organization, but also BHS's community service association. Club members volunteer for many non-profit organizations and help Lion Club sponsors. They are not running this year due to Mr. Koehler being fully remote.

Leo Club

Advisor:
Mr. Pierre

French Honors Society is a group of French students who have maintained good grades and have taken more than two years of French classes. Unfortunately due to COVID, they cannot run this year.

French Honors Society

Spanish Honors Society

Spanish Honors Society is made up of Spanish language students with a minimum of two years of study. Their goal is to spread the understanding of Spanish culture.

Advisor:
Mrs. Semancian

Community Empowerment & Leadership

This club gives students the opportunity to have the desire to better their communities. They discuss social issues as homelessness, hunger, substance abuse, and gender equality. Even during COVID times, they were able to do a toy drive fundraiser for those less fortunate.

Advisor:
Ms. Fligg

Peer Leadership

Peer Leadership is a group of students helping underclassmen learn about bias. They go to classes and do different activities to help educate against prejudice. They thankfully are running this year online with Zoom meetings to help with their cause.

Advisor:
Mrs. Swindler

Key Club

Key Club is one of the community service organizations that takes place at BHS. Students volunteer for different groups and spread kindness in their community. They are running this year virtually due to COVID.

Advisor:
Ms. Monroe

Mock Trial

Mock Trial Club involves students that have an interest in developing courtroom skills as attorneys and participate in the Massachusetts Bar Association's Mock Trial competition. It has been in existence for twenty years. Unfortunately, they could not run the club this year due to COVID and cannot compete.

Advisors:
Mr. Colwell and Mr. Vince

ACTORS in the MAKING

the Barnstable High School Drama Club

The past four– or, for some, five– years with the Barnstable High School Drama Club have been unforgettable. Many of us began our BHSDC journey with Stephen Sondheim's *Into the Woods* in 2017, followed by *High School Musical: On Stage* and *She Loves Me* during our freshman year. In sophomore year, we put on *Fahrenheit 451*, the first BHSDC straight play for many, and the first Black Box production for all, followed by *Pippin*. In our sophomore year, the BHSDC underwent many difficult changes. Our production of *Silent Sky* by Lauren Gunderson staged in the new lower library may not have gone up, but the memories will stay forever. COVID-19 caused our production of *Once Upon a Mattress* to also be cancelled. As a team, we have been through a lot. But the experiences we had here, the lessons we learned, and most of all, the friends we made, have changed us forever.

One of the ways the BHSDC changes us forever is that it allows us to discover new career paths. Almost every year, multiple BHSDC graduates go on to pursue the arts. See the pie chart below for a breakdown of our bright futures!

Behind great students...

"Hey Mr.Wanat, thank you for making my time at Barnstable so enjoyable. I will never forget you helping me through a hard time and making everything a lot easier."
- Emily Robinson

"Mrs.Decosta, you are an absolute legend. Most laid back teacher. Blessed to have you for sophomore and senior year."
- Liam Bedenkop

"Thank you Mrs.Gagnon for introducing me to some of the best books I've ever read."
- Joshua Watson

"Ms.Wu, you and our Chinese class family are what I cherish most about BHS. You never made me feel like I couldn't succeed. You've always pushed me to my best. You've supported me through hard times and even since being out of your class you've been someone I know I can turn to. Thank you for putting in so much time, effort, and love as you taught my peers and I Chinese. You're awesome!" - Bella Joiner

"Mr. Pierre, thank you for believing in me when I felt like no one else did. You've helped me see my own potential and push me to succeed everyday. You are amazing!"
- Olivia Florestal

"Mrs. Johnson- thank you for making math easy to understand and fun" :)
- Abby Smith

"Mrs.Pierozzi, thank you for everything that you've taught me over the past two years, I'll be using it all for the rest of my life. I also love how close we've become this year despite the pandemic causing us to really only talk over zoom. Thank you again for supporting me throughout most of my time at BHS."
- Hope Pulsifer

"Thank you McLaughlin for all you do. I miss the "lunch" call every week. Thank you for all the cool stories about your past and making sure we get our work, one way or another."
- Leah Pierce

"Mr. Mulgrew, thank you for showing me that I am intelligent enough to go and accomplish anything."
- Ana Soares

"Thank you for making my first and last year an amazing one. Everything that you have taught me, I will use in college and beyond. You have made my transition to Barnstable a lot easier and I appreciate everything you do for your students! Thank you Mr.Docherty!"
- Teagan Dymek

"Fligg, you are one of my favorite humans in the entire world. You have taught me so many valuable lessons throughout my time playing for you, and I have shared so many great memories with you. Thank you for being an amazing role model and an even better friend, Love you!"
- Morgan Dardia

"Ms.Brown thank you so much for everything you've taught me and helped me with throughout the years."
- Amber Trimble

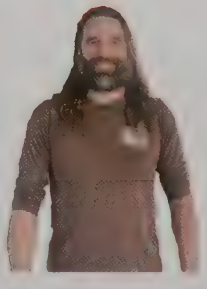
"Mrs. Johnson, thank you for putting a smile on my face everyday when I walk by you in the halls and to be lucky enough to have you there for me whenever I need it. You'll always be my favorite. I LOVE YOU!"
- Vanessa Jones

"Mrs.Kennard you are really awesome and you have always been there for me when I need it."
- Owen Bright

"Mrs.Tellert, I was so lucky to hav your support throughout the years You were the reason I got through every tough struggle!! I will miss coming to the hub everyday to hav great conversations about weird food combinations that are actuall delicious!!" - Mia Critikos

"Mr. Pyy has greatly influenced my experience at Barnstable High School. I remember a specific time when I failed a test and felt so defeated; he explained to me that a test does not define my intelligence. He is constantly reminding me of how successful I will be in my future. Mr. Pyy cares about the well-being of all students and is always a friendly face to see in the hall. Mr Pyy is the best!"
- Gracie Davis

"Mrs. Pyy is my favorite teacher! She's so chill and fun and I loved being in her class. She's an awesome teacher and always someone that I know I can talk to."
- Rileigh Nickulas



"Mr. Smith is such a hard working teacher. He is often in school on the weekends or over breaks. He is dedicated to teaching his students, and it shows! Thank you for a great few years of science classes!"
- Andrew McKeen

"What's good Mrs. OCOV, thank you for teaching these wonderful classes for years. Always the highlight of my day. Peace!"
- Liam Ingraham

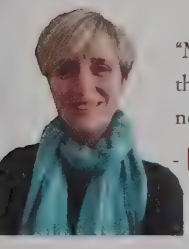
"Hello Ms.Wyrtrwal! You have been such an inspiration for me and so many others throughout high school!"
- Christian Bearse

"Jansen, you're the best. Thanks for supporting me and enduring every dumb thing Micky & I threw your way. Seeing your face in class and in the halls always brightened my day and I'm definitely going to miss you when I graduate!"
- Phoebe Gibson

"Mr. DeSorgher thank you for helping me these past four years!"
- Caitlin Osgood

"Thank you Mrs.Reid for always putting a smile on our faces in TGA!"
- Andrew Mccormack

"I will miss visiting Mrs.Roundtree and complaining about how annoying school can be. I had her in 8th grade math and every year after that I visited her I'd say almost everyday. She's so fun to talk to and she always puts a smile on my face. I can't believe I had her in 8th grade and now I'm a senior. Time flies! I'll miss you, while I'm in college."
- Kasi Powers



"Mrs. McIsaac, thank you for the memories and every class, never a boring moment."
- Robert Runci

"Mrs. Dawe is super nice to everyone and I find her really funny (she says bananer and it's the best thing ever)."
- Anna Prchlik

"Thank you Mr. Kingman for all of the help over my five years and helping me strive for excellence. Thank you for always listening and trying to help me get the best experience in high school."
- Conor Higgins

"Hi Mrs. Anderson!! Thank you so much for everything you did for me throughout high school. Spending three years with you was life changing and life saving. You helped me through the lowest parts of high school and let me talk to you about anything. I appreciate you more than you will ever know. I love you and thank you so much again!!"
- Sydney Hicks

"Hey Gorrill, thanks for always putting up with me and Fernanda." <3
- Bella DePinho

"Hi Mr. Shea!! I want to thank you for playing your music in the halls, hosting movie nights over zoom, dancing with me in my global issues TikTok, making awesome YouTube videos, singing, wearing the coolest outfits, talking in accents, and pranking my seventh-grade class into thinking you had a twin! You are the best, and I'm so lucky that I got to have you as a teacher. Keep being you! I'm going to miss you the most!! Huzzah!"
- Sarah Jacob

"Mrs.Peters, thank you so much for your patience with me! You are such a beautiful person inside and out!! Thank you for keeping up with my boy drama, my happy and sad days, my coffee withdraws, and etc.. You are my biggest role model in the school :) Thank you for being the most amazing and beautiful person in the world!
- Fernanda Milani

"Mr. Whidden, you were not only a teacher, but you were a mentor and someone I could talk to. I have learned so much from your classes. They have helped change me for the better. Now I can use the information I have learned for the rest of my life. For that, I want to say thank you for everything you have done for me."
- Will Cole

"Mr.Petze is my favorite because he's super funny and I love the stuff he teaches."
- Charlie Ewald

"Everyone is dope Thank you guys for these last five amazing years!" - Eduardo Suazo

OFF THE Rebound

Barnstable High School says goodbye to eight senior basketball players: **Emily Robinson, Christopher Botolino, Marvin Domino, Rodane Gordon, Carlos Guimaraes, Dakota Hendricks, Eduardo Suazo, and Liam Ingraham.** This year's boys and girls basketball teams are close knit teams that have persevered together regardless of COVID affecting many factors of the basketball season such as start time for the season, number of fans in attendance, and mask regulations. With Alik Taylor at the helm of boys 'team and Ross Jatkola at the head of the girls' team, these seasons will prove successful, regardless of the scoreboard.

Throwback

a closer look **with**
Emily Robinson

Barnstable's only graduating female basketball player, **Emily Robinson,** has been playing basketball since she was ten years old. Emily takes the position of a shooting guard on the court. Additionally, she has looked up to Sue Bird who plays for the Women's National Basketball Association. Emily tells us, "She inspires me because she worked hard to get where she is today and is still playing in the WNBA at the age of 40." One of her favorite memories is when she came back from surgery to play and all her teammates were there to help her get back on her feet.

How old were you when you first started playing?

Rodane: "I started playing when I was sixteen."

Marvin: "I started playing at eight years old."

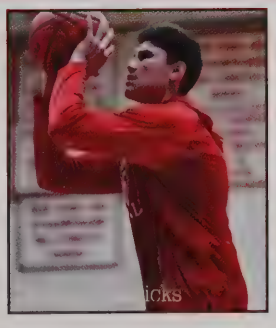
Q & A with the crew

What is your favorite memory from playing basketball?

Chris: "My favorite memory was our overtime win after a losing streak on the freshman team.. This was my favorite memory because of how we played as a team, and it was cool to have a game like that with my teammates from elementary school.."

Liam: "My favorite memory was junior year vs Marshfield, we were the underdogs. After a close game, we ended up winning and the atmosphere of the gym was crazy! Everyone was screaming and the energy was unmatched."

Who is your inspiration?



Dakota: "My dad is my inspiration because he got me into basketball and is the reason why I have become a better player over the years."

Carlos: "For several years now it has been Kawhi Leonard, because of his tragic story and not letting things get to him, always climbing to the top."

Coach Tim Grace has coached the boys varsity hockey team in the head coach position for the past six years. He has led them all through their successful hockey careers. Grace says goodbye to twelve seniors this year.

Coach Dunn assists Coach Tim Grace this season to help get the team to reach their full potential in the 2021 season..

covid regulations

Knowing the circumstances needed to be followed this year, the boys had a few new rules that needed to be fulfilled in order to keep their game in play. The rules consist of face masks worn at all times including on the bench and the ice and social distancing six feet or greater must be maintained on the ice and bench whenever possible. One of the most drastic changes of the season includes players not being able to enter the rink and get dressed in locker rooms. Players must put on all gear outside of the rink before entering. Barnstable Hockey has always had a huge following of fans. Due to COVID regulations, each player is only allowed to have two family members attend each game.

captains corner

WILL MARTONE, CAPTAIN

Being named a captain of any sport is a big accomplishment and shouldn't be taken lightly. As a captain it is your responsibility to lead your team, welcome the underclassmen and set an example on and off the ice Which is why it is such an honor to be selected captain of the hockey team.

DILLON HUNTINGTON, ASSISTANT

I'm honored to be a leader on a team with such a great group of guys. We have all grown up together and become closer as the years have passed. Any player can be given an "A" or" C" and call themselves a leader because of it, but true leaders bring out the best in those around them through everything they do, the actions they take, the way they carry themselves on and off the ice , the things they say, and even the things they don't say. For underclass men the biggest thing is growth and improvement as the season goes on, you love to see your fellow teammates grow and improve as the year goes on .

CONOR HIGGINS, ASSISTANT

As a senior I am honored to be picked as a captain, and trusted by my teammates to lead. As a fourth year varsity player, it definitely was something I wanted to be. Its a great feeling and also comes with great responsibility

Hollywood Disaster Movies Didn't Prepare Us For This Hollywood Disaster

Starting with the recommendation that people not gather in groups larger than 500, then 250, then eventually, 10, the movie industry faces dire consequences. "A Quiet Place II," "Fast and Furious 9" and 007's "No Time to Die" are the first movies to postpone their release dates. Pixar pushes "Onward" to Amazon's Prime Video Cinema streaming service only days after it's theatrical release. But for drive-in movie theaters, once a novelty throwback to a simpler time, the show will go on.

THE IMPACT ON ENTERTAINMENT

Celebrities Livestream During Quarantine

With concerts, festivals and movie productions shut down, celebrities stream performances from their homes to keep us entertained as we all stay #TogetherAtHome. Stephen Colbert and Trevor Noah deliver their late night TV monologues from their homes. And TikTok starts its first-ever livestream series #HappyAtHome: Live!

These Tickets Are No Longer Valid

Concerts, festivals, conventions, movie theaters and sporting events are all petri dishes of germs even without an active pandemic. But when social distancing is mandated, live entertainment may be the hardest hit.

Austin's tech, music and film conference South by Southwest cancels at the last minute. Music festivals Coachella and Stagecoach are pushed back six months to October. Pearl Jam, Avril Lavigne, Green Day, Blake Shelton and BTS cancel tour dates and reschedule shows. Stand up comedians take to livestreaming their sets. In New York, all Broadway shows are shut down as well as the Met Gala and Tribeca Film Festival. Las Vegas hotels, casinos and venues shut down, devastating Nevada's economy.

People stuck in self-isolation turn to streaming services like Netflix, Hulu, Amazon Prime Video, Disney+ and AppleTV+ to alleviate the boredom of staying put. Hulu adds a free, live news stream to its app to keep people up to date on the coronavirus. Netflix adds Netflix Party to connect with friends and sync streaming video, so you can virtually attend a movie with friends, without having to share your popcorn.

Disney Parks Go Dark

Citing "an abundance of caution," The Walt Disney Company announces all of their theme parks, cruise lines, hotels and shopping malls will close through the end of March 2020, with possible closure extensions as the situation evolves. This is the first time in history that all six Disney properties are closed simultaneously.

A Global Time-Out

The NBA abruptly suspends its season after Rudy Gobert of the Utah Jazz tests positive for COVID-19 ahead of Utah's tipoff against the Oklahoma City Thunder, sending home an arena full of very confused fans. The NHL freezes it's 2019-2020 season. Major League Soccer is put on hold, along with the start of Major League Baseball. The PGA cancels the Players Championship and postpones the Masters Tournament. And Formula 1, the Australian Grand Prix and NASCAR all postpone races until it's prudent to resume social gathering. The brand new XFL barely gets into its inaugural season before suspending play.

But the biggest impact comes with the announcement that the 2020 Olympics will be postponed until 2021, marking only the fourth rescheduling in the history of the modern Olympic Games.

March Madness Becomes March Sadness

Spring Sports Fall Back

High school athletes who compete in spring sports, take a knee. Spring sports such as soccer, track, tennis, golf, baseball, softball and lacrosse are completely on hold. Many teams aren't allowed to hold practices, meetings, conditioning or workouts during the time away from school. The NCAA even put a hold on recruitment, suspending National Letters of Intent signings until at least April 15, 2020.

COVID-19 Kills People, Only Hurts Economy

Our best chance to fight the spread of the coronavirus and save human lives is to stay home. And when people stay home, they can't earn money, so they stop spending money, so the economy comes to a grinding halt.

COVID-19 causes unprecedented spikes in unemployment and drastic slumps in the stock market, and we still don't know what damage will be done. We do know the only way to slow a pandemic and save lives is to shelter in place, and that forces us into a recession that could turn into an economic depression if treatment and a vaccine for this virus aren't developed soon.

If unemployment reaches 25 percent, it will be our worst rate since 1933 during the Great Depression. As entire cities buckle down and mandate self-isolation, we see a spike in unemployment claims across the country. Employees are hopeful that these are temporary measures until normalcy resumes. But many businesses, big and small, aren't equipped to be shuttered for weeks, and those companies may go away entirely without assistance from the government.

Historically, economies always recover, and there's no reason to believe we won't do the same after this virus is in check. How hard we are hit and how long the effects last is entirely dependent on how fast we stop COVID-19.

Once this is over, you'll want to go to the mall for some retail therapy. But supply-chain disruptions caused by the coronavirus outbreak are likely to make goods from China—including clothes, cars and electronics—scarce well into the second quarter of 2020.

Fight or Flight? Stay Home and Fight

At the urging of both the Centers for Disease Control and Prevention and the U.S. Department of State, Americans do their civic duty and shelter in place to stop the spread of the coronavirus. Travel bans are enacted between nations and flights around the world are canceled. As non-essential travel comes to a screeching halt, the airline, hotel and tourism industries brace for impact. With bankruptcies looming on the horizon, all major airlines begin to negotiate with the government for bailouts.

COVID-19 Causes Weight Loss to 401k's

There are a lot of moving parts to the U.S. economy, and at this stage in the pandemic, there are no clear answers as to what the lasting effects of this crisis will be. The short explanation is that while you were on spring break, your parents and grandparents watched in shock as their retirement funds got obliterated and their paychecks vanished into thin air.

Stock market drops happen, especially in times of uncertainty. But this is unlike recent stock market crashes that are caused by fears and speculations that change our economic behavior. With previous crashes, the government could attempt to change the course by infusing the market with stimulus plans. But when a pandemic forces millions of workers to shelter in place, the factories and machines they operate are shut down. Enormous resources lie dormant because the people who use them to keep the wheels of our economy turning must stay at home or risk catching and spreading a deadly disease.

Many public health officials consider it likely that severe social distancing measures will be needed throughout 2020 to stop this pandemic, and our modern economy has simply never seen a crisis of this scale before.

A Weapon of Math Destruction

Algebra teachers everywhere collectively scream "That's what I've been trying to teach you all semester!" when the entire planet becomes enthralled with charting exponential growth to predict and explain the rate of infection of COVID-19. The United States ranks among China, Italy, Spain and Germany as the hardest-hit. At the same time, South Korea, Singapore, Taiwan and Hong Kong appear to have some success at flattening the curve and spreading out the number of coronavirus cases over a longer period.

GLOBAL IMPACT

The World Health Organization officially changes their classification of COVID-19 from a public health emergency of international concern to a pandemic on March 11, 2020.

The first case of the novel coronavirus is reported in Wuhan, China, in December 2019. Early cases were believed to be connected to a live animal market in Wuhan. Because the virus was thought to have originated in animals, humans have no natural defense to the virus, and no known treatments exist.

The global implications have been severe, reaching every continent except Antarctica. Many countries have closed schools and non-essential businesses. International trade has slowed to a crawl. Some countries' borders have been completely closed, and travel is being discouraged unless it is absolutely necessary.

The current outbreak of infections sparks global anxiety and concern that the virus might spread too far and too fast, causing dramatic casualties before health officials find a cure.

SARS Made Hong Kong Ready for Coronavirus

As the epicenter of the 2003 SARS outbreak, Hong Kong has already established emergency protocols that help them avoid the exponential increase in COVID-19 cases that other countries cannot contain. Before the first confirmed case appears in Hong Kong, their health care system is alert and prepared to: declare an emergency response level, establish quarantine stations, close schools and public events, and take tracking and testing very seriously. Despite their proximity to China, Hong Kong manages to keep COVID-19 infections and death extraordinarily low.

It took 7,500 laborers working around the clock only 10 days to erect a makeshift emergency hospital in China's city of Wuhan—ground zero of the coronavirus pandemic. The facility is made up of two floors, featuring several isolation wards and 30 intensive care units. It can hold up to 1,000 patients.

Treatments and Cures Still Pending

COVID-19 is a novel (new) coronavirus, which means that as this pandemic gets larger and accelerates faster, scientists are still scrambling to find treatments and vaccines. This is why it is crucial to self-isolate the healthy and quarantine anyone who has potentially been exposed.

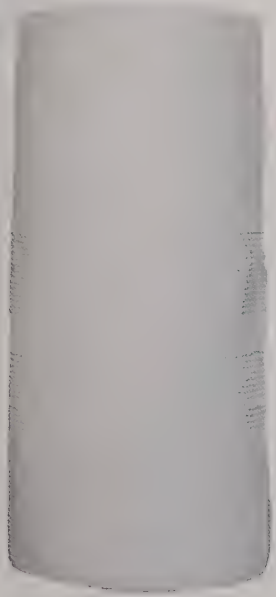
One of the first things to disappear from grocery stores, supermarkets and big box clubs was disinfectant spray. Health experts urged citizens to let the spray sit for 10 minutes instead of wiping off. *Photo by Kel Lemons*

TOILET PAPER

Pandemic anxiety caused Americans to stock up on paper products like toilet paper, with empty shelves becoming a common sight. Even big box stores like Walmart and Target struggled to keep shelves restocked as demand outweighed how quickly supplies could be replaced. Nielsen data for the week ending March 14, found toilet paper sales were up 213 percent from the same week a year earlier. *Photo by Danielle Bell*



PAPER TOWELS

Another item flying off shelves were paper towels. Consumers were reminded by municipalities to not flush wipes or paper towels down the toilet, which could cause plumbing and sewage issues.
Photo by Danielle Bell

HAND SANITIZER

More than any other household item, hand sanitizer was the most popular sales item in the spring of 2020. Nielsen data found sales increased 470 percent the week ending March 7, compared to the same week in 2019. There became such a shortage in March that people began making their own and several beverage companies switched to making hand sanitizer to help.

One Last Look With the Class 2021

Favorite Memories from over the years...

Sidney Higgins

"Playoffs for Volleyball- it's the best time of the year as Coach Turco always says. The moments and memories that my teammates and I have shared will always be remembered. Whether it's bonding while we gasp for air after line sprints, or sharing secrets at team dinners."

Griffin Pierce

"Favorite memory would be during quarantine running in the rain during a storm for no reason and the Maine bash."

Owen Bright

"Football was my favorite memory from high school, especially pre season in the weight room. I enjoyed getting to workout with all my teammates and friends."

Jacob Crosson

"711 Walks. Before Covid, every weekend me and my friends would walk from my friend Sams's house to the 711 on Route 28. We would always just talk and listen to music and hangout and we even became friends with the guys that worked at 711. It was a great tradition with some of my best friends."

Mei Li Lawrence

"One of my favorite memories was the white-out football game last year. It was raining really hard and everyone was drenched. I remember watching the game, laughing, cheering, and having the best time. I miss being so carefree."

Greta Nickerson

"The times I fell down the stairs. When my friend Sophie tripped me in the hall and the time when someone slammed into me in the halls because looking back, I can laugh at how clumsy I am."

When you look back on this school in later years, what will you remember most?

"I will remember when the pipes burst and we were out of school for a couple of days."

Molly Metz

"How close I became to the people in my life and how I felt like I was feeling happy with who I was as a person."

Hope Pulsifer

"In all five years.. it would be when the wrestling team would play tag in the halls after school."

Miles Bearse

"Seeing myself and my friends turn from dumb little eighth graders into grown men with responsibilities."

Brenden Dowling

Most Creative way to get out of doing Homework...

Ryan O'Malley

"I faked a concussion."

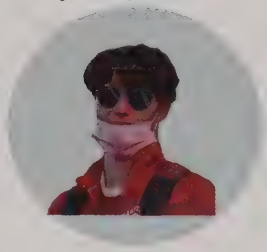
Leah Pierce

"My dog ate it and I don't even have a dog."

Katy Shaw

"My water spilt in my bag and it's ruined."

Alan Ives



"I told my teacher that there were no pencils or pens in the house and that both of the cars were in the shop, so I wasn't able to do any homework. There were many flaws."

Vanessa Jones

" Since the pandemic, I've told my teachers that my WiFi crashed, then leave the Zooms or sometimes that I have completely no WiFi."

David Fitzpatrick

"I told my teacher that my little brother ripped up my worksheet that I had left on my table. I don't have any siblings."

What is the first thought you have in the morning?

"Should I make a coffee or buy it?"

Fernanda Milani

"Did that really happen or was it just my dream?"

Renee VanLeeuwen

"I need coffee."

Michael Rodolakis

Soak Up the *Sun* ...and the CULTURE

Traveling to new locations and different countries can be for vacation and exciting experiences, but it can also be to visit far away relatives. These adventures become a part of who we are and give us the possibilities to explore new places. Many seniors in Barnstable High School have been lucky enough to visit those family members or experience different cultures on their vacations. Whether you are canoeing and hiking the mountains of New Hampshire, swimming in the warm waters of Mexico, or enjoying gelato while taking in the statue of David in Italy, the memories created on these trips will last a lifetime. Below are images of seniors on their travels around the country and the world.

"My favorite part of Brazil is being able to spend quality time with my family, which means a lot to me especially since they live so far away. The same goes for all of my friends who live there and we spend so much time away from each other, but when we see one another it's as if no time had passed. For me, the best part is being able to reconnect with this other side of myself which is only present over there."

-Matthew Oliveira

BLUE SKIES FOR DAYS

In Jamaica, everyday is a beach day **Lee- Anna Fyffes** favorite part of Jamaica is downtown Kingston because that is where the big crowd is. Her favorite cultural dishes from Jamaica are curry chicken and cornmeal dumplings

CHEESY DELIGHTS

Matthew Oliveira's favorite cultural dishes from Brazil are Pao de Queijo or Pamonha, especially if they are made by his grandmother.

RISE TO THE TOP

Laura Barroso is sitting in front of one of the oldest churches in her hometown called Igreja Santa Rita. Her favorite part of Brazil is the state that she lived in for five years called Minas Gerais

FRIED HEAVEN

Gabriel Vargas favorite part of Brazil is where his parents live because there are a bunch of waterfalls. His favorite cultural dish is his mom's fried banana with rice, beans, and steak.

"My favorite part of traveling to Italy was the amazing and authentic Italian foods. Between the pasta the pizza, the gelato, and even their cappuccinos, I could always count on having an amazing meal. We split the time of our stay up between Rome and Florence! In my time in Italy, I learned so much about ancient Roman history. I fully immersed myself into their culture and tried to learn as much about Italy as I could. Because Italy has such deep history, I spent lots of my time in art museums, seeing David, The Duomo, Vatican, the Trevi Fountain, and so much more!"

-Gracie Davis

CAPTIVATING COLOSSEUM

Photo above showcases the Colosseum taken by **Rebekah Nailor** on a trip in February of 2020 to Rome, Italy with Barnstable High's Latin students.

There are friends, there is family, and then there are friends that become family.

Question & Answer

Who is your favorite professional football player and why?

"Rob Gronkowski because he is a goofy and fun guy who doesn't let his fame change who he is as a person."
- Brenden Dowling

"My favorite professional football player was Pat Tillman because character is often more important than skill."
- Joe Laber

Do you have any game day routines or superstitions?

"My pre-game superstition is that I have to be completely stretched out. I feel like I will play bad if I don't."
- Matt Laverty

"My routine is that I have to pray before the start of every game".
- Colin Marczely

What is your favorite memory from playing football at BHS?

"My favorite memory while playing at BHS was when I recovered my first fumble my freshman year."
- Owen Bright

"My favorite memory from playing football at BHS was when we beat Xaverian our junior year season."

Get Served

What is your favorite thing about being a part of the Barnstable volleyball team?

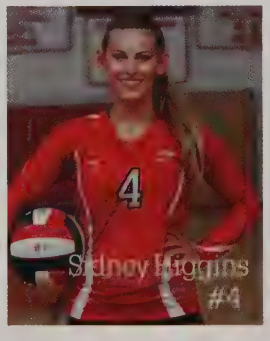
"How we're always 15 deep and we stick to our goals and expectations no matter the situation."

"The relationships I've made with the other girls on the team."

"The big rivalry games when we would have a huge fan base and the football players would wear cropped jerseys."

"It's really cool to be a part of something with such a legacy of excellence and challenge to be the best."

"The pride of upholding our reputation"



"The traditions, like all the tournaments and team dinners we would have."

"How much fun we have playing the sport together."

"The championships and having hundreds of fans cheering us on."

Dig Yellow

Olivia Brodt, a class of 2015 alumni was diagnosed with Rhabdomyosarcoma her senior year at Babson. This diagnosis inspired the team to create an annual game in the support of her battle with such a rare cancer. Olivia lives on through the program and is a part of every player who steps out on the court with the number three on their arm. Her retired jersey is displayed on a banner up on the gym wall reminding the players of her strength and passion for the sport. The girls tie their shoes with yellow laces and fill their waters in the donated fountain before games. Although Olivia is no longer with us, her warm spirit is something that will never be forgotten.

COACHES

What are three words you would use to describe this year's senior volleyball players?

Coach Turco

Together
Driven
Focused

Coach Robles

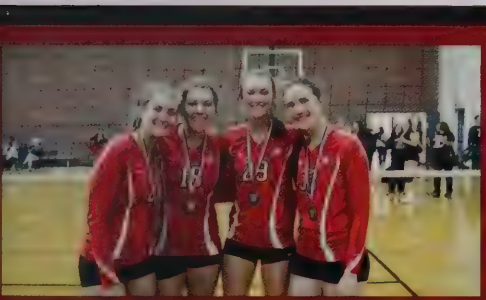
Driven
Resilient
Strong

Coach Brodt

Determined
United
Supportive

A Team Above All

The girls Barnstable High School Varsity Volleyball team is known for their teamwork and athletic ability. The eight seniors: **Vanessa Jones**, **Greta Nickerson**, **Emily Mulcahy**, **Emma Tilton**, **Phoebe Gibson**, **Sidney Higgins**, **Caroline Kiehnau**, and **Sophie Strock** on the team show their commitment to the sport on and off the court. Although this year was like no other, these girls showed that they are true winners within. Being coached by Coach Turco, Coach Brodt and Coach Robles these girls are unstoppablee. Furthermore, off the court the girls received the AVCA Team Academic Award from displaying their hard work in the classroom by maintaining a 3.30 GPA. The senior girls are true leaders and their unbelievable hard work in practice pays off in the long run.



Go BIG Red!

Krisofferson

Amy recalls her favorite memory from her 8th grade year when the team had made it to regionals for the first time in 11 years.

You can hear her Cheer:

"Hold that Line and Red Hot!"

Noonan

Tia looks back on the bus rides to games and competitions where the team would be cheering, singing, and laughing, "It created a bond between the team," she tells the staff.

You can hear her Cheer:

"Hey Red Lets Go and Rowdy!"

Marcondes

Nicole likes to think back on her bus rides with her team to away games for our football team. She also likes going to competition and being able to compete with her fellow teammates.

You can hear her Cheer:

"Go Go Raiders!"

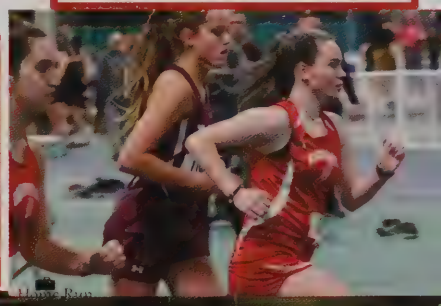
Keeping on Track



The yearbook staff says goodbye to our seven wonderful seniors.

This year's winter track team had to modify their winter season due to the new COVID regulations. The teams' practices are being held outside on the track with masks instead of running through the hallways inside the school. The team got a late start to the season starting in March, but are excited to have their last high school season well underway.

the history

Mr. Hill

class of 1995

Q: What was your favorite class in high school?

My favorite class was history with Mr. Williams. I really enjoyed him as a teacher and I had him in the night school program that we used to have here at BHS!

Mr. Pyy

class of 1990

Q: What school extracurriculars did you participate in?

I played baseball and soccer. As for clubs, I was also in the Drama Club and the Best Buddies Club!

Fun fact: Mr. Kingman was Vice President of his class and captain of the Golf team!

Mr. Kingman

class of 1999

Q: Why did you decide to teach at your alma mater?

Being an educator at BHS runs in the family. My father taught science here for 32 years beginning in 1973, and my mother worked as an administrative assistant for over a decade. I guess you can say that working at BHS as an educator is the family business. There has been a Kingman educating students at BHS for the past 47 years.

Mrs. Morassi

class of 1994

Q: Who was your favorite teacher and why?

A math teacher, Mrs. Sullivan, was my favorite teacher because she was kind and challenged us. When I began teaching at BHS, she was a mentor to me. Mrs. Sullivan is the reason I am a math teacher.

Mr. Caldwell

class of 1976

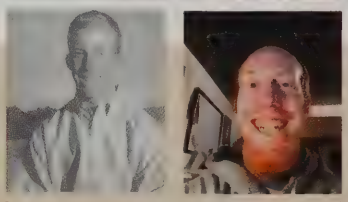
Q: What was your favorite class in high school?

My favorite class was Repertory Theater. During the class, we rehearsed a play that we entered in the Massachusetts High School Drama Festival. The teacher, Mr. Ruberti, was the drama club director and an English teacher, and he was the coolest teacher ever!

Fun fact: Mr. Caldwell won the Most Theatrical superlative, was President of the Drama Club, was Captain of Winter Track, and was the Sports Editor of Insight! Wow!

Mr. Norton

class of 1999



Q: What school extracurriculars did you participate in?

In my freshman year at BHS I played basketball, and then I played football and lacrosse!

Fun fact: Mr. Norton won the Class Individual superlative!

Mr. Blazis

class of 1978

Q: Why did you decide to teach at your alma mater?

It was me coming full circle. My father taught here for 35 years, I went here, my brother went here, and I've had five kids go here. I have a lot of care and connection to the Barnstable community, and I wanted to do what I could to make a positive impact on the environment here and to motivate students environmentally. I wanted to follow the motto of thinking globally and acting locally.

Fun fact: Mr. Blazis won the "boy I'd most like to be stuck on a deserted island with" superlative in 7th grade... Not because the girls had a crush on him, but because he was a hunter and a scientist and they knew he'd help them survive!

Ms. Lariviere

class of 1983

Q: Who was your favorite teacher and why?

Ms. Sue Trafton. She was an English teacher. She always had time for a conversation, and she listened more than she talked. She made me think about things differently. She would always let me meet with her to talk about an essay before I started actually writing it. She would listen to my ideas, and then ask me a few questions. It always helped, and I ended up getting clarity from our conversations. She also liked people in general- always had a smile ready.

Fun fact: Ms. Lariviere won the National Orchestra Award!

Designed by Anna Item and Lily Aubee

memory lane and reflect on BHS in days gone by!

our staff

Mr. Jordao

class of 2014

Q: What fashion trends were all the BHS students wearing?

Everybody was wearing Vans and Jordans... And mohawks were super popular.

Fun fact: Mr. Jordao played soccer and his favorite teachers were Mrs. McIsaac and Ms. Swindler!

Ms. Reid

class of 1981

Q: What school extracurriculars did you participate in?

I was in photography club. I danced jazz, tap, ballet and was in BHS Jr. Miss.

Fun fact: Ms. Reid won the Soul Sister superlative and was the first ever student to come back to teach at Barnstable Middle School!

Mr. Dumas

class of 2000

Q: What do you think is the biggest difference between BHS then and BHS now?

There will be volumes of information written about the differences between BHS in the 1990's and early 2000's to BHS now. They are two different planets.

Fun fact: Mr. Dumas won the superlative for either Loudest or Most School Spirit - he can't remember! He also helped his team to win the Division I Superbowl defeating BC High 20-7! Wow!

Mr. Hill

class of 2003

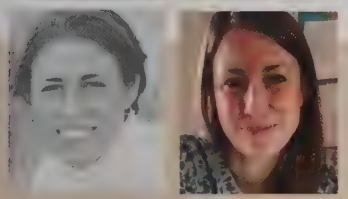
Q: What was your favorite BHS memory?

Best memory was beating BR my senior football season for the OCL championship on their field. We hadn't beaten them in years and it was a tight, back and forth game. We won on a TD pass from me to Andre Barboza at the end of the game in a thriller.

Fun fact: Mr. Hill won the Most Athletic superlative!

Mrs. Styche

class of 1998



Q: What fashion trends were all the BHS students wearing?

We wore a lot of cargo pants and plaid flannel button downs. Adidas slides. The skater-girl look. Thrift store finds. I loved making my own clothes. I made my own Homecoming dress one year!

Fun fact: Mrs. Styche was on the Yearbook committee in high school! They had to design everything by hand on giant sheets of graph paper!

Ms. Fligg

class of 2006

Q: Did you have a great BHS teacher who made you want to be a teacher?

There were many wonderful teachers at BHS who influenced me, but Mrs. Gyra and Mr. Caldwell are two of the main influences to my wanting to become an English teacher. Their creativity, their dedication to their craft, and the way they connected with their students inspired me to want to follow in their footsteps.

Fun fact: Ms. Fligg was Captain of the Softball team and the Girls' Varsity Soccer team!

Mrs. Roundtree

class of 2007

Q: What do you think is the biggest difference between BHS then and BHS now?

It has always made me laugh that when I was in high school NO ONE would be caught wearing a backpack. You used your locker between every class (and yes, you could do that, talk to your friends, and get to class on time within the six minutes). Now, it seems like the opposite is true. Everyone wears a backpack and no one uses their locker.

Mr. Small

class of 2010

Q: What was your favorite BHS memory?

I have a lot of good memories from BHS, so it is hard to pick just one. Don't tell the deans, but I had a teacher who didn't care much about our learning during senior year. A friend and I would go out for lunch to Olive Garden or Panera every Friday if we had the money. We did get caught, but for a kid who was a pretty big rule follower, that was a lot of fun.

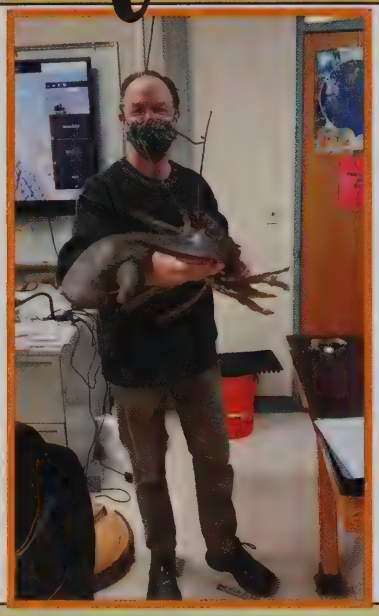
Mrs. Reid

"We were excited when Mrs. Reid decided to come work at BHS. She came here and hit the ground running earning the respect of her students and her colleagues. She brought a smile and an energy to the 2700 hallway that all who passed by her room was drawn to. Her creativity and love for her job, her students, and her school shows every day. Our relationship grew quickly and she became one of my trusted confidants. I will miss her and her hopscotch."- *Mrs. Taylor*

"Mrs. Reid always has a smile on her face, wants to talk, and always has the best advice. Have something bothering you? Mrs. Reid is there to talk. I was very lucky to have her as a TGA teacher and she made sure every day was a good day. She's always full of energy and positivity and loves to sing and dance. If you ask any of her TGA students I know they would say she's the highlight of their day. Every one of us will miss you."- *Andrew McCormack*



Mr. Gorrill

"Mr. David Gorrill retiring? It will be hard to imagine BHS without my friend and colleague, but I know he will be hiking, biking, relaxing at the coast and enjoying his family, friends, music and this wonderful thing called life. Mr. Gorrill has been a gift to us all! The smile! The punctuated "Yes! There is some answer given to a direct question..." interesting." The all-caps notes on the board, showing us the world from giant squids to fractals. BHS will miss his mentoring, amazing depth of knowledge (such as who played guitar on an obscure album to the Genus Specie of a particular bug), kindness and support. Godspeed Mr. Gorrill." - *Mr. Holland*

"I'll start by saying Mr. Gorrill isn't your usual high school teacher. He's got this spark or charisma that makes him one of the best people to listen to. He's always got some kind of cool story to share with us and getting off-topic is his specialty. I took his coastal studies class my junior year and I liked it so much that I took his environmental science class. I've really enjoyed his classes because it is engaging and always interesting. Not to mention, Mr. Gorrill is a huge music lover and always has a little tune playing in the back of his mind. It's nice being able to relate to music because a lot of kids have never heard the story about Billy Joe and Bobbie Sue. In a nutshell, I would have to say that Mr. Gorrill is one of the most down to earth dudes I've ever met."- *Anna Prchlik*

Ms. Houghton

"What can be said about Mrs. Pam Houghton? She's simply amazing! She is generous with her time, tirelessly working for her students. She is nurturing and kind and creates a calm environment. She is humble and helpful. She sets everyone, students and colleagues alike, at ease with her peaceful demeanor and her sense of humor. She will be missed." - *Mrs. Welch*

"Pam Houghton, thank you for your hard work and commitment to the students of Barnstable High School. You have always been a team player with your colleagues, willing to share ideas and help all of us be better at what we do. By keeping your academic and social expectations high, countless young people are better prepared to handle life outside BHS classrooms. I feel blessed to know two of your children - they reflect the creativity, work ethic, and determination of their mother. I never say goodbye. Instead, I know I shall see you around...and when I do, (like always) we will share a laugh. Thank you for remembering to ask about my mother. That means so much to me." -*Mrs. Gagnon*

Mr. Robertson

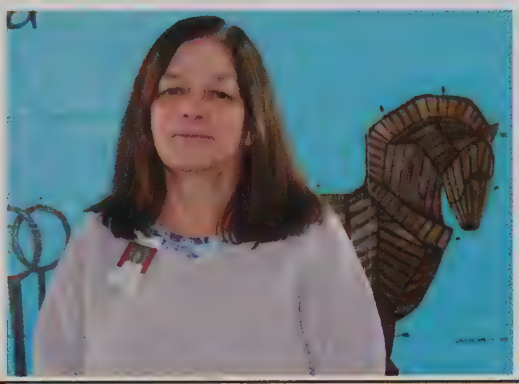
"Mr. Robertson was the only math teacher to not give up on me. His class to this day is my all-time favorite. Seeing him play his guitar during passing never failed to make me smile. I will forever be grateful to be given the honor to call you my teacher and my tutor. Thank you for the most memorable moments of my high school career."- *Ana Laura Soares*

"Mr. Robertson not only taught me in the classroom but also on the lacrosse field. I am extremely thankful for his patients and dedication to teach his students and athletes. I am definitely going to miss all his corny math jokes! Congratulations on your retirement, Coach Robertson!"- *Heather Hanson*

Mr. Gyra

"Mike Gyra often described himself as a laborer. A worker in the trenches. His labor of love was Barnstable High School, and his passion was to inspire his students, all students, and faculty alike, to do and be their personal best. Mike is that rare person who makes a vision become reality. Mike brought his students the stars, and left his mark upon our school. Mike is a testament to the transformative power in all of us, should we choose to dream and work for what we believe in. Thank you Mr. Gyra."
- *Mr. Holland*

"Throughout my high school experience I have sat in the classroom's of countless teachers—who's words and memories will not follow me past the walls of BHS. But the memory of Mr. Gyra, his astro-junkie squad, and chaotically decorated classroom will always be with me. I want to thank Mr. Gyra for being so fatherly, and for caring so deeply for each of his students—his kindness has played a larger part in our lives than he will ever know. Thank you Mr. Gyra for being a teacher, a parent, and most importantly a friend for so many of us at and beyond BHS. We would surely "bet the farm" on you."- *Abby Smith*



Mrs. Cerretani

"I remember the day I received my junior year schedule for classes, and I read my roster of teachers to students in the grades above. I recall hearing nice things about most teachers, however when I told people I had Mrs. Cerretani, their ears perked up and they told me how she was an amazing teacher with an extremely kind heart. Mrs. Cerretani was an absolute joy of a teacher, provided her students with a deeper understanding of English, and was even able to incorporate her passion for art into our learning. When it came to college readiness, and helping with college applications as well as writing supplements, Mrs. Cerretani was a lifesaver. Thank you Mrs. Cerretani, we will miss you dearly."- *Gracie Davis*

"I was fortunate enough to spend two years as Mrs. Cerretani's roommate in 2703. At that time, I was a 26 year old educator placed with an experienced teacher who had come from BIS, and I didn't know what to expect or how our personalities would mesh. As we grew to know each other, she became more than a colleague to me. She became a confidant, a kickboxing pal, a mentor, and most importantly--a friend. Her soft and calming voice instantly brought me peace on those "challenging" days, and the love she showed her students inspired me everyday throughout my educational journey. Mrs. Cerretani is loved by so many of her students because she respects them, challenges them, and cares for them as if they were her own. I hope to be half the human she is by the time I retire and leave BHS. Thank you for the mark you have left on my life and those of all the Barnstable students you have encountered. We wish you all the best in retirement, my sweet friend."- *Mrs. Whidden*

Mr. Clark

Dear Mr.Clark,

"For many years you've devoted yourself to educating children, now you can look back with pride at all you've accomplished. Thank you so much for everything you have done for us! We will surely miss the friendship and guidance you gave us in school, we wish nothing but the best for you on your next job."- *Fernanda Milani*

"Principal Patrick Clark is a man of integrity who cares about others and has a servant's heart. Students always felt welcome by his making personal connections a priority. His contagious school spirit led him to attend countless extracurricular events. He has a growth mind set. He is a consummate educator who is an avid reader and held a positive vision for the future of Barnstable High School. He will be sorely missed."

To the Class of 2021,

This has been nothing like the senior year we expected!

The yearbook staff truly put our blood, sweat, and tears into making this yearbook represent some trace of normalcy for the senior class in such an abnormal time. Like everything else this year, creating the yearbook was much more difficult than ever before, coming with so many unexpected challenges. With such limited in-person time and half the amount of photos that yearbook staff of years past usually had, we found ourselves relying greatly on teachers and students providing us with photos and other content themselves. We sent what felt like thousands of emails, and we truly did our best to make this the greatest yearbook possible. Please excuse any possible errors, and know that we tried to meticulously check each word, each photo, as many times as we could before publishing it.

Each page was crafted with care, in the hopes that 10, 20, 30 years from now, you can look back at this book as a time capsule, a way to remember a whirlwind few years. Class of 2021, we are resilient! We will make history. In so many ways, we already have.

Para a classe de 2021,

Isto não tem sido nada como o último ano que esperávamos!

A equipe do yearbook realmente colocou nosso sangue, suor e lágrimas para fazer este livro do ano representar algum traço de normalidade para nossa classe em um tempo tão anormal. Como tudo este ano, criar o yearbook foi muito mais difícil do que nunca, vindo com tantos desafios inesperados. Como não estávamos todos os dias na escola, e metade da quantidade de fotos que a equipe do yearbook de anos anteriores geralmente tinham, nós esperando muito dos professores e estudantes nos mandando fotos e outros conteúdos para o yearbook. Enviámos milhares de E-mails, e fizemos o nosso melhor para fazer deste o melhor yearbook possível. Por favor, nos perdoe pelos possíveis erros, e saiba que tentamos verificar cada palavra, cada foto, quantas vezes pudermos antes de publicá-la.

Cada página foi trabalhada com cuidado, na esperança de que 10, 20, 30 anos a partir de agora, você vai poder olhar para este livro como uma cápsula do tempo, uma maneira de lembrar um turbilhão de poucos anos. Classe de 2021, somos resistentes! Vamos fazer história. De qualquer maneira, já estamos fazendo!

HOW DOES THE IMPEACHMENT PROCESS WORK?

February 5, 2020

Last December, the House of Representatives voted on two articles of impeachment against President Donald Trump, specifically abuse of power and obstruction. Both were passed with votes mainly falling on partisan lines. All 195 Republicans in the House voted against both articles and nearly all Democrats voted in favor of them with only a handful of exceptions. The process itself has begun to raise questions about what qualifies for an impeachable offense, along with potential motives from each political party.

Three months earlier in September, the Speaker of the House Nancy Pelosi launched an impeachment inquiry on Trump, after a whistleblower revealed that Trump withheld $400 million of military aid from Ukraine for damaging narratives on Joe Biden, one of his political opponents. Additionally, information about Russia's involvement with the 2016 election was included as another element in the inquiry.

Many Americans believe that impeachment means the complete removal from office. Kate Scholes, an AP United States History teacher who is currently teaching about impeachment, emphasizes in her classes that the definition is different from the majority's understanding.

"Impeachment simply means to be charged with bribery, treason, and other high crimes and misdemeanors," said Scholes.

After passing the articles of impeachment, the next step in the process is discussing the rules of the trial. The policies of impeachment trials can differ depending on the administration, and it was a topic of fierce discussion for this trial specifically. Both political parties agreed on 24 hours over three days for each party to present their arguments, and Senators to ask While the polici being discussed withheld from s impeachment to were sent to the 15th, and the tr January 20th.

Record Turnout for Cape Cod Voters

November 3, 2020

Nationally, there was a record voter turnout to vote in person Tuesday and by mail-in, early and absentee balloting.

On the Cape and Islands, more than 166,000 people cast their ballots, 17,000 (114%) more than in 2016. Former Vice President Joe Biden received over 60% of the votes counted President Donald Trump's 35%. Four years ago, Hillary Clinton received 53% of Barnstable County while just under 40% of voters chose Trump.

KOBE BRYANT AND DAUGHTER KILLED IN HELICOPTER CRASH

January 26, 2020

NBA legend Kobe Bryant, his 13-year-old daughter, and seven others were killed in a helicopter crash on a steep hillside in dense morning fog in Southern California on Sunday, his sudden death at age 41 touching off an outpouring of grief for a star whose celebrity transcended basketball.

The chopper went down in Calabasas, about 30 miles northwest of downtown Los Angeles. Authorities said that nine people were aboard the helicopter and presumed dead. Bryant, an all-time basketball great who spent his entire 20-year career with the Los Angeles Lakers, was among the victims, a person familiar with the situation said. Bryant's 13-year-old daughter Gianna also was killed, a different person familiar with the case said.

Also among the dead were John Altobelli, head coach of S California's Orange Coast College baseball team, his wife, daughter, Alyssa, who played on the same team as Bryant' said his brother, Tony, who is the sports information direct school.

Altobelli was the coach of the Brewster Whitecaps in the

CONSTRUCTION

underway on SAGAMORE

Saturday, July 11th, 2020

State and federal leaders announce this week that a project to replace the Bourne and Sagamore bridges will shift to the state level.

Under a new memorandum of understanding, the U.S. Army Corps of Engineers will continue to own, operate and maintain the existing bridges until replacement bridges are built and operational. The Massachusetts Department of Transportation will lead construction efforts of the replacement bridges. Once the new bridges are complete, MassDOT will own, operate and maintain them as part of the state's network of roads and bridges.

CP1 Being Phased Out

April 24, 2019

Recently, a decision was made by superintendent Meg Mayo-Brown to phase out CP1 level classes for the upcoming school year. This will not only affect students enrolled in a CP1 class, but also kids enrolled in the CP2 and honors levels. Next year, some students will be placed in multilevel classes and teachers will be required to form lesson plans that accommodate students of different levels.

The reasoning behind this decision, according to an email Meg Mayo-Brown recently sent to faculty, is to take labels off of students, desegregate classes, and to provide a learning opportunity for those enrolled in CP1 classes where they may grow and succeed more effectively.

"While I believe CP1 courses were designed in order to support students who are struggling, the unintended consequence of the strategy has resulted in a form of tracking along racial lines," said Mayo-Brown.

A task force of teachers at BHS was recently put into place responsible for creating a plan to effectively implement the new decision in the coming year.

The task force is currently in the process of develo an action plan, said task force member Bruce Colw history teacher at BHS.

According to member Wendy Johnson, a BHS mat teacher, CP1 classes will only really be removed fo freshman next year. Sophomores, juniors and senic still have normal CP1/2 and honors offerings, whil freshman will have the option of a combined CP le honors class.

While the goal of phasing out CP1 is ultimately to benefit the learning of all students, the effectivene multi-level classes is currently being called into qu by many.

SUPREME COURT JUSTICE RUTH BADER GINSBURG DIES

September 18, 2020

Supreme Court Justice Ruth Bader Ginsburg, a diminutive yet towering women's rights champion who became the court's second female justice, died Friday at her home in Washington. She was 87.

Ginsburg died of complications from metastatic pancreatic cancer, the court said.

Her death just over six weeks before Election Day is likely to set off a heated battle over whether President Donald Trump should nominate, and the Republican-led Senate should confirm, her replacement, or if the seat should remain vacant until the outcome of his race against Democrat Joe Biden is known.

Chief Justice John Roberts mourned Ginsburg's passing. "Our Nation has lost a jurist of historic stature. We at the Supreme Court have lost a cherished colleague. Today we mourn, but with confidence that future generations will remember Ruth Bader Ginsburg as we knew her — a tireless and resolute champion of justice," Roberts said in a statement.

Ginsburg announced in July that she was undergoing chemotherapy treatment for lesions on her liver, the latest of her several battles with cancer.

Ginsburg spent her final years on the bench as the unquestioned leader of the court's liberal wing and became

TRUMP PLANS TO BAN TIKTO

Saturday, August 1, 2020

The popular video sharing app TikTok is owned by a Chinese company and the Trump administration has expressed concerns it could be a tool for Chinese intelligence; Lucas Tomlins reports.

President Trump told reporters late Friday that he plans to ban the social media platform TikT from the United States as soon as Saturday. A ban would further pressure TikTok's Chinese par company ByteDance to sell the app's U.S. operations amid national security concerns about user personal data. Microsoft is a leading contender to buy.

"As far as TikTok is concerned, we're banning them from the United States," Trump told reporte Air Force One." I have that authority...It's going to be signed tomorrow." He said he could use an executive order or emergency economic powers.
